

MBA Personal Statement Sample

I was fourteen when I had the idea for my first business. At the time, I only had an idea, but I decided that I was going to take it forward into the market. I had the idea for a bowl that didn't need washing, and contacted multiple materials labs across the country to find if any of them had any coatings or solid product of anything that would be easily cleaned of anything that was water or oil based. I tried for two years with that research, only to find that the consensus was that so far, no material had been discovered at a reasonable cost that could repel both liquid and oils. Although that dream became shelved, going through the motions of building on an idea inspired me to continue in the field of business in the future.

Over the past few years, I have striven to increase my exposure to business concepts and the workings of the market, determined to continue my dream of one day managing my own business. The past two years, I have spent my summers interning at Frederick Consulting, where I have been in charge of generating new models and reviewing client business structure to make suggestions for business organization in the coming years. These experiences have given me significant insight into the operation of business firms, and heightened my communications skills.

I hope to take my strong business background and integrate it with the management courses that I took in college, emerging as a fully qualified business management professional. A MBA from Georgetown University would not only provide me with the requisite training and education, but also will open the door to many new opportunities. As a world leader in business management, a degree from Georgetown will give me a leading edge in the job market.
