

# How to Write a Term Paper Proposal

For any student writing a research paper, the proposal is the most important step in the process. The quality of your proposal can be the deciding factor in whether the review board accepts your topic. Here are some steps to help you write a proposal for a research paper. (1500 – 1800 words)

## Instructions

1. Write a catchy title. Think of something that will grab the reader's attention and keep them interested. Be as concise as possible.
2. Write the introduction. State the purpose of the study, demonstrate your knowledge of the topic and its importance, describe any major issues and key research points, pinpoint the variables and explain any boundaries of the study.
3. Provide a resource review. This section outlines all sources you have used in your research and shows your knowledge on the topic. It also gives credit to those who have done previous research on this subject and developed the framework for your research.
4. Explain the implementation of your methods. Demonstrate your knowledge on the methods you used and explain how they benefit your research.
5. Predict your results. You have no results at this stage, but it is suggested that you have some idea of the data you will collect and what kinds of procedures will be used to answer your question or hypothesis.
6. Discuss the potential impact of your results. Readers will want to know the benefits and possible drawbacks of your research.

## Tips & Warnings

- Be sure to thoroughly understand the structure and functions of each part of your research paper proposal.
- Be confident in your potential results. This will improve the credibility of your paper and make readers more apt to identify with your research and approve your proposal.
- Have a third-party review and edit your proposal.

## How to Make an Introduction

Effective research papers are not written in one day. It takes weeks of preparation to create a well-researched paper with a strong structure and authoritative references. Students assigned research papers are sometimes required to submit a proposal -- usually three to four pages in length -- that demonstrates the manner in which you will write the paper. This proposal is an important step because it will become the foundation upon which you write your paper. Before writing the proposal, create an outline that addresses all the main points you will cover.

Your introduction sets the tone for your research paper and provides the reader with a first impression of your writing and your thesis. Follow a few guidelines listed below and find yourself writing effective introductions that convince your readers that your thesis and research are worth their time and attention.

Grab the reader's attention with a fact, question, quote, analogy or short, interesting narrative supporting the thesis. This should set the tone for your paper while triggering the reader's interest

*A Systematic Guide to Write a Research Paper* , **Understanding Communication Theory** Stephen M. Croucher, 2015-08-20 This book offers students a comprehensive theoretical and practical guide to communication theory. Croucher defines the various perspectives on communication theory: the social scientific interpretive and critical approaches and then takes on the theories themselves with topics including interpersonal communication, organizational communication, intercultural communication, persuasion, critical and rhetorical theory and other key concepts. Each theory chapter includes a sample undergraduate written paper that applies the described theory along with edits and commentary by Croucher, giving students an insider's glimpse of the way communication theory can be written about and applied in the classroom and in real life. Featuring exercises, case studies and keywords that illustrate and fully explain the various communication theories.

*Understanding Communication Theory* gives students all the tools they need to understand and apply prominent communication theories.

*How to Write a Research Paper: A Guide Book for Neophyte Students* Dr. Rashmee Yadav, 2023-02-14 ABOUT THE BOOK The book *How to write a Research Paper* Guide book for neophyte students composed by three youngsters Dr Rashmee Yadav, Dr Brij Vikash Singh and Dr Mithesh Verma is a fantastic effort in this direction. They have covered almost all the areas of research paper writing process and how to write a research paper etc. The book is based on the research paper writing process. The author's main focus on this book *How to write a Research Paper* Guide Book for the neophyte students. This book is helpful to students writing research paper in proper way because plenty of research papers are written every year. But in many of them research methodology aspect is not given a considerable attention and because of which the research papers end up in just being endless words containing stories leading to less or no sense. It should be noted that the quality in research articles comes from the extensive planning and in depth research before starting writing them actually. This is true even for management research papers. Writing a research paper analyzes a perspective or argues a point. Regardless of the type of research paper the researcher is writing, the researcher should present his own thinking backed up by others' ideas and information. Research paper as a result of the research in the teaching of writing discussions with colleagues and own experiences. We have developed a detailed approach to writing research papers and the approach is presented here. Instead of focusing on one research paper, we have focused on the process of research writing through a series of shorter writing exercises. Students begin by having to carefully think about a topic of research and by developing a working idea. They then write a series of shorter essays that explore that topic. All along the way, students are continuing to research and revise their working proposal so that by the end of the term, their thinking about their original topic of research has evolved. This book
