EU Competition Law, Data Protection and Online Platforms: Data as Essential Facility Inge Graef, 2016-10-17 All are agreed that the digital economy contributes to a dynamic evolution of markets and competition Nonetheless concerns are increasingly raised about the market dominance of a few key players Because these companies hold the power to drive rivals out of business regulators have begun to seek scope for competition enforcement in cases where companies claim that withholding data is needed to satisfy customers and cut costs This book is the first focus on how competition law enforcement tools can be applied to refusals of dominant firms to give access data on online platforms such as search engines social networks and e commerce platforms commonly referred to as the gatekeepers of the Internet The question arises whether the denial of a dominant firm to grant competitors access to its data could constitute a refusal to deal and lead to competition law liability under the so called essential facilities doctrine according to which firms need access to shared knowledge in order to be able to compete A possible duty to share data with rivals also brings to the forefront the interaction of competition law with data protection legislation considering that the required information may include personal data of individuals Building on the refusal to deal concept and using a multidisciplinary approach the analysis covers such issues and topics as the following data portability interoperability data as a competitive advantage or entry barrier in digital markets market definition and dominance with respect to data disruptive versus sustaining innovation role of intellectual property regimes economic trade off in essential facilities cases relationship of

competition enforcement with data protection law and data related competition concerns in merger cases The author draws on a wealth of relevant material including EU and US decision making practice case law and policy documents as well as economic and empirical literature on the link between competition and innovation The book concludes with a proposed framework for the application of the essential facilities doctrine to potential forms of abuse of dominance relating to data In addition it makes suggestions as to how data protection interests can be integrated into competition policy An invaluable contribution to ongoing academic and policy discussions about how data related competition concerns should be addressed under competition law the analysis clearly demonstrates how existing competition tools for market definition and assessment of dominance can be applied to online platforms It will be of immeasurable value to the many jurists business persons and academics concerned with this very timely subject

The Pluralist Character of the European Economic Constitution Clemens Kaupa, 2016-08-25 This monograph intervenes in the long standing and controversial debate on the socio economic orientation of the European Union Arguing that the European economic constitution is pluralist in the sense that it does not favour any specific socio economic paradigm it shows that European law allows the pursuit of very different regulatory projects by the European and the national legislators This pluralist character of the European economic constitution stands in an uncomfortable relationship with the policies currently pursued by the European Union which are often neoliberal in their orientation The book takes an interdisciplinary approach it analyses the Treaty on the Functioning of the European Union as interpreted and developed in the case law of the Court of Justice its history and its regulatory purpose in the light of conflicting socio economic paradigms By challenging the orthodoxy the book makes a bold proposition that will likely resonate in both European economic law scholarship and European law in general With the ongoing economic crisis triggering a significant interest in economic questions among legal scholars it is particularly timely and topical

Emissions Trading Schemes under International Economic Law James Munro, 2018-08-09 The announcement by China that it will implement a national emissions trading scheme confirms the status of this instrument as the pre eminent policy choice for mitigating climate change China will join the dozens of existing and emerging schemes around the world from the EU to California South Korea to New Zealand that use carbon units otherwise known as emissions permits or carbon credits to trade in greenhouse gas emissions in a multi billion dollar global carbon market However to date there has been no consensus about this pre eminent policy instrument being regulated by international economic law through the World Trade Organization international investment agreements and free trade agreements Munro addresses this issue by evaluating whether carbon units qualify as goods services financial services and investments under international economic law and showing how international economic law applies to emissions trading scheme in diverse and unexpected ways Further by engaging in a comparative assessment of schemes around the world his book illustrates how and why all emissions trading schemes engage in various forms of violations of international economic law which would not in most instances be justified

by environmental or other exceptions In doing so he demonstrates how such schemes can be designed or reformed in ways to ensure their future compliance Monetary Policy in India Chetan Ghatge, Kenneth M. Kletzer, 2016-11-25 This book presents research that applies contemporary monetary theory and state of the art econometric methods to the analysis of the monetary and financial aspects of the Indian economy and the impact of monetary policy on economic performance Indian monetary policy has attracted significant attention from Indian and international macroeconomists over the last several years Interest in how monetary policy influences economic performance and how monetary policy is conducted in India is growing The prospects for further financial sector reform and ongoing inflation in India have sparked new interest in the role of money and monetary policy in India among economists policy makers and students alike The book should also interest economists outside India because it studies monetary economics in a major emerging market economy and makes advances in the analysis of how financial market imperfections and structural constraints influence the effects of monetary policy

Finance and Development, June 2014 International Monetary Fund. External Relations Dept., 2014-05-27 This chapter highlights various ways Asia's growth has affected the world economy The chapter also shows that if currency trends continue the Asian economy is expected to be larger than that of the United States and Europe combined Some Asian countries offer sophisticated financial markets and are centers for technological innovation while others are largely agricultural The study shows that the region is home to 700 million poor people about 65 percent of the world's poor a figure that stands in stark relief against Asia's economic strength and growing prosperity The chapter also references the inquiry by the managing editor of the Journal of Economic Perspectives into the rich and sometimes tortured relationship between economics and virtue **Consumer Involvement in Private EU Competition Law Enforcement** Maria

Ioannidou, 2015-09-03 Despite the growing importance of consumer welfare in EU competition law debates there remains a significant disconnect between rhetoric and reality as consumers and their interests still play only an ancillary role in this area of law Consumer Involvement in Private EU Competition Law Enforcement is the first monograph to exclusively address this highly topical and much debated subject providing a timely and wide ranging examination of the need for more active consumer participation in competition law Written by an expert in the field it sets out a comprehensive framework of policy implications and arguments for greater involvement positioning the debate in the context of a broader EU law perspective It outlines pragmatic approaches to remedial and procedural measures that would enable consumer empowerment Finally the book identifies key institutional and political obstacles to the adoption of effective measures and suggests alternative routes to enhance the role of consumers in private competition law enforcement The book's innovative approach combining normative analysis and practical solutions make it invaluable for academics policy makers and practitioners in the field

Economic Impacts of Intellectual Property-Conditioned Government Incentives Dan Prud'homme, Hefa Song, 2016-06-21 This book provides new insights into the economic impacts strategic objectives and legal structures of an

emerging branch of government incentives conditioned on meeting intellectual property related requirements Despite becoming more common in recent years such incentives ranging from patent fee subsidies and patent box tax deductions to inventor remuneration schemes are still under researched A diverse range of analytical methods including econometric analyses case studies and comparative legal analysis are used to study these incentives in countries in Europe and China Scholars policymakers and practitioners can benefit from the conceptual and practical insights as well as policy recommendations provided

Engaging the neighbours Frank Frost, 2016-07-08 From modest beginnings in 1967 the Association of Southeast Asian Nations ASEAN has become the premier regional institution in Southeast Asia The 10 members are pursuing cooperation to develop the ASEAN Community and also sponsor wider dialogues that involve the major powers Australia has been interested in ASEAN since its inauguration and was the first country to establish a multilateral link with the Association in 1974 Australia and ASEAN have subsequently engaged and cooperated on many issues of mutual concern including efforts to secure an agreement to resolve the Cambodia conflict signed in 1991 the initiation of the Asia Pacific Economic Cooperation grouping 1989 and the ASEAN Regional Forum 1994 the conclusion of the ASEAN Australia New Zealand Free Trade Agreement signed in 2008 and the development of the East Asia Summit from 2005 This book provides the first available detailed history of the evolution of Australia s interactions with ASEAN It assesses the origins and phases of development of Australia s relations with ASEAN the role ASEAN has played in Australian foreign policy since the 1970s the ways in which the two sides have collaborated and at times disagreed in the pursuit of regional stability and security and the key factors that will influence the relationship as it moves into its fifth decade

Economic Dignity Gene Sperling, 2021-10-12 Timely and important It should be our North Star for the recovery and beyond Hillary Clinton Sperling makes a forceful case that only by speaking to matters of the spirit can liberals root their belief in economic justice in people s deepest aspirations in their sense of purpose and self worth The New York Times When Gene Sperling was in charge of coordinating economic policy in the Obama White House he found himself surprised when serious people in Washington told him that the Obama focus on health care was a distraction because it was not focused on the economy How he asked was the fear felt by millions of Americans of being one serious illness away from financial ruin not considered an economic issue Too often Sperling found that we measured economic success by metrics like GDP instead of whether the economy was succeeding in lifting up the sense of meaning purpose fulfillment and security of people In *Economic Dignity* Sperling frames the way forward in a time of wrenching change and offers a vision of an economy whose guiding light is the promotion of dignity for all Americans

Evil Corporations Penny Crofts,2024-07-05 This book elaborates and interrogates the idea of evil corporations from a diverse range of disciplines There has long been awareness of systemic harms inflicted by corporations but this awareness has rarely led to any effective legal means to prevent and or respond adequately to them Lawyers and legal theorists appear to be stuck asking the same questions and giving the same ineffective answers Part of the problem this book maintains is the relative lack of theoretical interrogation into the nature of corporations as responsible moral agents To break this stasis this book draws upon philosophies of wickedness in order to ask whether or not corporations are or can be evil With contributions from a range of different disciplines including law cultural theory theology and philosophy it offers a novel account of how and why corporate wrongs are caused whilst exploring the extent to which the legal system itself facilitates such wrongdoing The book targets a broad international audience with research interests in corporate crime This will be of particular interest to those within the legal discipline including corporate law criminal law corporate crime and law and humanities scholars Chapter 9 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial NoDerivatives CC BY NC ND 4 0 license

Utilities Reform in Twenty-First Century Australia Malcolm Abbott,Bruce Cohen,2021-07-01 Utilities Reform in 21st Century Australia Providing the Essentials traces the development and consequences of the economic reform measures undertaken in the utilities sector in Australia communications energy water wastewater services and transport in the last years of the 20th century and early decades of the 21st century In doing so it looks at the process of reform across industries and across the state and federal jurisdictions to identify what motivations the various governments had for pursuing reform how change varied across jurisdictions and what issues arose in the process Although by the mid 1990s all states and territories and the Australian Government were committed to reforming utilities as part of the National Competition Policy not all pursued this reform with the same degree of speed and breadth of action The broad trends of economic reform in Australia and abroad are also touched upon to provide an outline of the wider context in which the reform of the utilities occurred This book therefore explores the relationship between politics and society on the one hand and economic reform on the other as well on as the efforts of governments in Australia to promote economic growth and the wealth of Australians in an increasingly complex and challenging global economic climate

Making Social Spending Work Peter H. Lindert,2021-04-08 How does social spending relate to economic growth and which countries have got this right and wrong Peter Lindert examines the experience of countries across the globe to reveal

what has worked what needs changing and who the winners and losers are under different systems He traces the development of public education health care pensions and welfare provision and addresses key questions around intergenerational inequality and fiscal redistribution the returns to investment in human capital how to deal with an aging population whether migration is a cost or a benefit and how social spending differs in autocracies and democracies The book shows that what we need to do above all is to invest more in the young from cradle to career and shift the burden of paying for social insurance away from the workplace and to society as a whole

Understanding Korean Public Administration
Kwang-Kook Park, Wonhee Lee, Seok-Hwan Lee, 2016-06-17

Although much has been written about the Korean public administration the international academic community has little knowledge about it as most of the literature has been written in Korean This book aims to provide more accessible knowledge internationally by filling that gap covering both the history and the current status of the Korean public administration This book is a collaboration of many Korean public administration scholars and would appeal to those interested in the secrets of Korea's rapid development in such a short span of time Each chapter covers historical contexts key to understanding its public administration and an important aspect as Korea is a fast changing society The book takes on a more pragmatic approach rather than to put the Korean experiences into the western theory Each chapter therefore provides an extensive discussion on the lessons learned and practical implications
