**Credit Score** Lita Epstein, Lita, MBA Epstein, 2007 Consumers have known about credit reports for a long time we're well aware that lenders rely on them to determine whether they want to do business with us Any time we want to buy a house rent an apartment or take out a loan it's a safe assumption that one or several reporting agencies are going to be contacted to provide our credit history But we don't always realize that there's a single element on that report that determines success or failure and that's a three digit number called a credit score Created by Fair Isaac and Company this formerly secret FICO number was until fairly recently available only to lenders and businesses and although it's hush hush no longer many of us still don't understand it because there hasn't been enough information on what it is and what exactly lenders are looking for And we certainly haven't known how to make it work for us rather than against us In *The Complete Idiot's Guide to Improving Your Credit Score* author Lita Epstein clearly explains what your credit score is and how it impacts your life Rather than putting the focus squarely on credit emergencies it provides everything readers need to know to raise their score and keep it high now and in the future

**101 Powerful Tips For Legally Improving Your Credit Score** Max Editorial, 2023-06-06 LIGHTNING PROMOTION There are many misconceptions about credit scores out there There are customers who believe that they don't have a credit score and many customers who think that their credit scores just don't really matter These sorts of misconceptions can hurt your chances at some jobs at good interest rates and even your chances of getting some apartments The truth is if you have a bank account and bills then you have a credit score and your credit score matters more than you might think Your credit score may be called many things including a credit risk rating a FICO score a credit rating a FICO rating or a credit risk score All these terms refer to the same thing the three digit number that lets lenders get an idea of how likely you are to repay your bills Every time you apply for credit apply for a job that requires you to handle money or even apply for some more exclusive types of apartment living your credit score is checked In fact your credit score can be checked by anyone with a legitimate business need to do so Your credit score is based on your past financial responsibilities and past payments and credit and it provides potential lenders with a quick snapshot of your current financial state and past repayment habits In other words your credit score lets lenders know quickly how much of a credit risk you are Based on this credit score lenders decide whether to trust you financially and give you better rates when you apply for a loan Apartment managers can use your credit score to decide whether you can be trusted to pay your rent on time Employers can use your credit score to decide whether you can be trusted in a high responsibility job that requires you to handle money The problem with credit scores is that there is quite a bit of misinformation circulated about especially through some less than scrupulous companies who claim they can help you with your credit report and credit score for a cost of course From advertisements and suspect claims customers sometimes come away with the idea that in order to boost their credit score they have to pay money to a company or leave credit repair in the hands of so called experts Nothing could be further from the truth It is perfectly possible to pay down debts and boost your credit on your own with no expensive help
