The Weight of Everything Marcia Argueta Mickelson, 2023-05-02 It s been six months since Sarah s mom died Three months since her dad fell apart Sarah has left her fine arts boarding school to take care of her dad and her little brother and now she s trying to hold everything together at home while adjusting to the local public high school With her dad s drinking and spending getting out of control Sarah struggles to make sure that the bills are paid that her brother is fed and safe that her dad s grief won t crush them all She has no time for art unless she s cranking out a piece to sell online for some grocery money And she definitely doesn t have the time or the emotional energy to find out if her sweet handsome classmate David Garza could be more than a friend But then a school project prompts Sarah to delve into her mom s Mexican and Guatemalan roots As she learns more about this side of her heritage Sarah starts to understand her mom better and starts to face her own grief When she stumbles upon a long buried piece of history that mattered deeply to

her mom Sarah realizes she can't carry her pain silently anymore. She has to speak up and she can't do it alone. *Alexander Dallas Bache* Merle M. Odgers, 2016-11-11 This is the biography of a man who made his greatest contribution to science in his reorganization of the U S Coast Survey. Alexander Dallas Bache was appointed superintendent in 1843 and the Survey increased its scope and improved its methods in the study of winds, tides, currents, and harbors under his charge. Grandson of Benjamin Franklin, Bache was also active in education. Elected first president of Girard College when he was thirty, he visited European educational institutions in order to study their methods. And it may well be that because of the admiration felt for his great ancestor, he was received in Europe with more attention than even his scholarship and personality merited. His survey of European educational institutions resulted in his monumental Report on Education in Europe, which exerted a profound influence on educational methods in the United States. At heart, however, Bache was primarily a scientist, and he became a significant figure in the development of American scientific institutions in general and of Philadelphia in particular. An indefatigable worker, he also served as Superintendent of Weights and Measures in the United States, as a member of the Lighthouse Board, a Regent of the Smithsonian Institution, and Secretary of the American Philosophical Society. **Our George** Barbara Best, 2008-09-04 It's a story everyone thinks they know about the young boy from the back streets of Belfast who grew up to be the most famous footballer in the world, a legend who was the first superstar of the sport but whose troubled personal life, as much as his sporting genius, came to dominate the headlines. But Barbara and Carol, George's sisters, and Dickie, his father, know more. *Our George* reveals for the first time the real story of George Best as told by those who knew him best and loved him most. It's the inside story of the ordinary Belfast family whose love for and contact with their famous son and brother never wavered through the years. It's the story of a family desperately helping him as he battled the illness that also claimed the life of their beloved wife and mother. *Our George* is a searingly honest book about the influences that moulded the legend and the demons that haunted his life. Speaking for the first time, the intensely private Best family reveals how George really felt about the people and the events that shaped his life. Barbara Best is frank in confronting George's own failings and those of some of the people who were close to him, as well as offering a unique perspective on the many pressures to which he was subject. *Our George* is illustrated with a wealth of previously unseen family photographs, documents, and correspondence, much of it deeply poignant between George and his family. *The White Moth* Camilla Calhoun, 2018-10-24 *The White Moth* is an intimate, riveting portrait of life at a farm villa in Tuscany from the challenging times of fascism and foreign occupation in the 1940s to the idyllic farm-to-table times in the 1970s. A generational saga of longing, loss, and displacement, the book is also an American woman's tribute to her Italian husband and mother-in-law. While championing Alda's courage, optimism, and resilience despite heartbreaking loss, the author also celebrates her own idyllic times spent harvesting and falling in love with her friend at his farm villa in the 1970s. The book explores the interconnected stories of three generations of women who marry into the Rafanelli family and reveals the importance of place and the tender

relationship between women It is also the story of the changing roles and status of women and challenges the stereotype of the often maligned role of a mother in law A Way to get Wealth ... The thirteenth time corrected, and augmented by the author Gervase Markham,1695 **The Trotting Horse of America: how to Train and Drive Him. With Reminiscences of the Trotting Turf. Edited by C. J.
