grime **Last Call for the African-American Church** Chester Williams, 2014-12-24 Last Call for the African American Church revisits the commandment Jesus left his followers to proclaim the gospel worldwide until his return one that by all accounts is no longer a priority in the contemporary African American church Despite the presence of euphoric praise and worship celebrations and the proliferation of diverse ministries it advertises as cutting edge the implosion of missions has occurred in this church s pulpits and pews Selected biblical foundations of missions are provided for those new to the parlance and for others needing a refresher course Along with conventional missions distinctions Chester Williams logs some concepts in the glossary he himself has constructed for readers and for collegial review They include the feminization of missions rummage sale missions missions without Jesus and window dressing missions For the most part these concepts represent a radical departure from apostolic missions and are viewed as biblical tinkering and convolution most importantly as obstructions to the Great Commission world harvesting **Servanthood of Song** Stanley R. McDaniel, 2024-05-23

Servanthood of Song is a history of American church music from the colonial era to the present Its focus is on the institutional and societal pressures that have shaped church song and have led us directly to where we are today The gulf which separates advocates of traditional and contemporary worship Black and White Protestant and Catholic is not new History repeatedly shows us that ministry to be effective must meet the needs of the entire worshiping community not just one segment age group or class Servanthood of Song provides a historical context for trends in contemporary worship in the United States and suggests that the current polemical divisions between advocates of contemporary and traditional classically oriented church music are both unnecessary and counterproductive It also draws from history to show that to be the powerful component of worship it can be music whatever the genre must be viewed as a ministry with training appropriate to that Servanthood of Song provides a critical resource for anyone considering a career in either musical or pastoral ministries in the American church as well as all who care passionately about vital and authentic worship for the church of today **NIV, Our Heritage and Faith Holy Bible for African-American Teens** Zondervan, 2012-07-03 Our

Shout to the Lord Ari Y. Kelman, 2018-06-19 How music makes worship and how worship makes music in Evangelical churches Music is a nearly universal feature of congregational worship in American churches Congregational singing is so ingrained in the experience of being at church that it is often misunderstood to be synonymous with worship For those who assume responsibility for making music for congregational use the relationship

between music and worship is both promising and perilous promise in the power of musical style and collective singing to facilitate worship peril in the possibility that the experience of the music might eclipse the worship it was written to facilitate As a result those committed to making music for worship are constantly reminded of the paradox that they are writing songs for people who wish to express themselves as directly as possible to God This book shines a new light on how people who make music for worship also make worship from music Based on interviews with more than 75 songwriters worship leaders and music industry executives Shout to the Lord maps the social dimensions of sacred practice illuminating how the producers of worship music understand the role of songs as both vehicles for and practices of faith and identity This book accounts for the human qualities of religious experience and the practice of worship and it makes a compelling case for how sometimes faith comes by hearing

Decolonizing Contemporary Gospel Music Through Praxis Robert Beckford, 2023-08-24 Is contemporary Black British gospel music a coloniality What theological message is really conveyed in these songs In this book Robert Beckford shows how the Black British contemporary gospel music tradition is in crisis because its songs continue to be informed by colonial Christian ideas about God Beckford explores the failure of both African and African Caribbean heritage Churches to Decolonise their faith especially the doctrine of God biblical interpretation and Black ontology This predicament has left song leaders musicians and songwriters with a reservoir of ideas that aim to disavow engagement with the social historical world black Biblical interpretation and the necessity of loving blackness This book is decolonisation through praxis Reflecting on the conceptual social justice album The Jamaican
