Case Study Analysis in the Classroom
Renee W. Campoy, 2005 Case Study Analysis in the Classroom encourages students to consider best practices in teaching and to solve problems concerning students who are gifted underachieving resistant to classroom learning or who have special needs This book is a valuable way to introduce students to the complex world of teaching and learning Arthur T Costigan Queen s College City University of New York Stories of students in need or of teachers who are struggling draw readers into the process of solving classroom problems in a manner that traditional textbook formats are unable to match Presented in an engaging and stimulating manner Case Study Analysis in the Classroom Becoming a Reflective Teacher provides beginning teachers a variety of typical classroom problems to analyze and solve Solving the case study problems helps new teachers develop the knowledge bases they need to solve real problems in their own classrooms More than a book of cases it is an important starting point for students learning about case study research especially the analysis of cases and their potential uses in the classroom In addition readers will also be guided through the process of reflective problem solving developing an educational philosophy and writing their own case studies Author Renee Campoy has written cases that tackle challenging and controversial problems Her approach rests on the foundation that authentic learning and growth are best achieved through ideas that challenge assumptions and preconceived notions about education A matrix of case studies is included that groups the cases by grade level case focus and primary educational topic allowing students and instructors at all levels to customize their use of the book Case study topics include Low academic achievement

Learning disabilities Low motivation Misbehaving and disruptive students Reluctant readers High stakes assessment Inappropriate scaffolding Cultural conflict Socioeconomic issues Attention deficit hyperactive disorder Parent conferences Bilingual education To support the problem solving process each case study includes a rubric that provides feedback to the reader about the quality of their solution The rubric is research based and written according to the King and Kitchener model of reflective judgment This approach encourages teachers to apply their classroom experiences knowledge of content and understanding of learning theory during classroom problem solving Case Study Analysis in the Classroom is well suited as a text for courses throughout education curricula including educational foundations research methods field experience and practicum and instructional strategies courses It will also be an invaluable desk reference for practicing teachers and administrators who need additional guidance on classroom problem solving

Handbook of Research on Special Education Teacher Preparation Paul T. Sindelar, Erica D. McCray, Mary T. Brownell, Benjamin Lignugaris/Kraft, 2014-03-05 Compilations of research on teacher preparation often

include no more than a cursory mention of the specific roles and needs of special education teachers Although the work that special education teachers perform does indeed differ from the work of classroom teachers teacher preparation in the two fields has much in common The purpose of this seven part handbook is to expand our knowledge of teacher education broadly by providing an in depth look at the most up to date research on special education teacher preparation Opening chapters ground the collection in political and economic context while subsequent sections delve deeply into issues related to the current state of our special education workforce and offer insights into how to best prepare and sustain that workforce Ultimately by illuminating the particularities of special education teacher preparation this landmark handbook addresses the state of current research in the field and sets an agenda for future scholarship
