Certain Trumpets

This “beautifully written and reasoned” (Booklist) narrative by Pulitzer Prize-winning author Garry Wills examines what constitutes meaningful leadership, and why it is so essential to society. What makes a leader? How do we identify effective leadership, and how should—and shouldn’t—that power be used? In *Certain Trumpets*, Garry Wills presents portraits of eminent leaders including FDR to Ross Perot, King David, Martha Graham, and many others, offering an illuminating lens for studying society and ourselves. Dividing these portraits into sixteen leadership categories ranging from military to charismatic, intellectual, rhetorical, and elected, Wills highlights what makes each of his subjects unique, crafting along the way a distinct and incisive definition of leadership as a reciprocal engagement between two contrasting wills that serves to mobilize us toward a common good, and explaining why leadership is so often a contentious and emotionally charged subject. “A stunningly literate and thoughtful examination of what makes a leader...[and] a welcome antidote to some of the more egregious ‘management style’ drivel,” (Kirkus Reviews), *Certain Trumpets* is an inspiring and edifying tour through the history of an indispensable social art.

This Is Water

Only once did David Foster Wallace give a public talk on his views on life, during a commencement address given in 2005 at Kenyon College. The speech is reprinted for the first time in book form in *THIS IS WATER*. How does one keep from going through their comfortable, prosperous adult life unconsciously? How do we get ourselves out of the foreground of our thoughts and achieve compassion? The speech captures Wallace’s electric intellect as well as his grace in attention to others. After his death, it became a treasured piece of writing reprinted in *The Wall Street Journal* and the *London Times*, commented on endlessly in blogs, and emailed from friend to friend. Writing with his one-of-a-kind blend of causal humor, exacting intellect, and practical philosophy, David Foster Wallace probes the challenges of daily living and offers advice that renews us with every reading.

You Are Not Special

An inspirational reflection on the way we bring up children that will resonate with all parents. David McCullough, Jr.’s high-school graduation address, dubbed *You Are Not Special* when it went viral on YouTube, was a tonic for parents, students, and educators alike. Now he expands on that speech with wit and a perspective earned from raising four children and teaching high-school students for nearly 30 years. In this humorous and insightful book, McCullough takes a hard look at helicopter parents, questionable educational goals, professional university coaching, electronic distractions, and more — and advocates for a life of passionate engagement.

The Leader in Me

Children in today’s world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? *The Leader in Me* is that programme. It’s based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk

Twilight of Liberty William A. Donohue, 2017-09-08 *Twilight of Liberty* is a sequel to Donohue's highly regarded *The Politics of the American Civil Liberties Union* but with a marked change in emphasis. Instead of challenging the ACLU's nonpartisan reputation as he did in the earlier volume, Donohue now seeks to demonstrate why and how recent ACLU policy undermines the process of liberty. He argues that the ACLU, by relentlessly warring with mediating institutions and by pushing a radical individualism in its policies, is not making us more but less free. Two conceptions of liberty are discussed. The first considers the social context in which the struggle for freedom takes place. It maintains that freedom is best achieved through a delicate balancing of individual rights with the legitimate needs of the social order. The other conception of liberty is atomistic, exclusively concerned with the rights of the individual. According to Donohue, such a definition assures the triumph of the state over the mediating institutions of society, thus reducing prospects for freedom. This is the first book to critically analyze contemporary ACLU policy and to challenge its reputation as the preeminent voice of freedom in the United States. It aims to move beyond the idea that freedom is best served by pushing individual rights to extremes. *Twilight of Liberty* will appeal to scholars in the fields of law, social policy, and culture. Students in civil liberties courses will also find this book a valuable resource.

Religion, Education and the State Mark Strasser, 2016-04-08 In the context of education, Church and State issues are of growing importance and appear to be increasingly divisive. This volume critically examines the developing jurisprudence relating to religion in the schools, beginning with *Everson v. Board of Education*, where the US Supreme Court discussed the wall of separation between Church and State. The study traces both how the Court's views have evolved during this period and how, through recharacterizations of past opinions and the facts underlying them, the Court has appeared to interpret Establishment Clause guarantees in light of the past jurisprudence when, in reality, that jurisprudence has been turned on its head. The Court not only offers an unstable jurisprudence that is more likely to promote than avoid the problems that the Establishment Clause was designed to prevent but approaches Establishment Clause issues in a way that decreases the likelihood that an acceptable compromise on these important issues can be reached. The study focuses on the situation in the US, but the important issue of religion, education, and the state has great relevance in many jurisdictions.

Law and American Education Robert Palestini, Karen Palestini Falk, 2012-04-13 This third edition expands coverage on such topics as the law and students with disabilities, confidentiality, sexual harassment, student searches, and tuition vouchers. It also includes some new topics such as bullying, copyright law, and the law and the internet. Both public and nonpublic school educators are aware that courts over the last several decades have played an increasingly significant role in defining school policy. Decisions in such areas as school desegregation, prayer, public school financing, student rights, collective bargaining, students with disabilities, sexual harassment, and other personnel issues attest to the extent and importance of judicial influence. It is important, therefore, that teachers and administrators have at least a rudimentary knowledge and

understanding of school law and how it affect their day to day classroom activities There is a sizable body of school law with which educators should be familiar if they wish to conduct themselves in a legally acceptable manner Those educators who fly by the seat of their pants may be in difficulty if sufficient thought is not given to the legal implications of their decisions and conduct This text provides introductory material for those educators interested in K 12 educational issues and who have little or no background or knowledge in school law This book takes a case brief approach to the study of school law Case briefs are the means by which students of the law summarize cases to facilitate learning and analysis This book s purpose is to provide those who are involved and interested in education with a rudimentary knowledge base for making educationally sound decisions within the legal framework of our nation Having such knowledge may preclude or at least minimize an educator s exposure to liability On the other hand this book is not intended to scare educators into inaction Many of the most effective learning activities carry with them a certain degree of risk Field trips and laboratory experiments come immediately to mind The knowledge obtained from this book is not intended to end the taking of field trips and the conducting of laboratory experiments It is intended to be a guide to conducting these valuable activities in a responsible manner that will minimize the educator s exposure to liability

Laboratory of Justice David L. Faigman, 2004-06-03 In recent decades the Court has been confronted more and more by such questions of fact Today's Court faces a range of issues affirmative action gay marriage the right to die privacy in a high tech society and the place of the word God in the Pledge of Allegiance that all rest to some degree on science As has been the case over the past two hundred years many of these battles will come down to the scientific sensibilities of individual justices To ensure our liberties in posttechnological America Faigman argues the Court must embrace science rather than resist it turning to the lab as well as to precedent BOOK JACKET **Civil and Political Rights in the United States**, 1994

Judicial Decision Making Lawrence Wrightsman, 1999-07-31 In the mid 1970s as a social psychologist dedicated to the application of knowledge I welcomed our field s emerging interest in the legal system I have always been fascinated by jury trials something about the idea that two conceptions of the truth were in irrevocable conflict and jurors could choose

only one of them More important the criminal justice system is a major social force that has been ignored by social psychologists for most of the twentieth century As I systematically began to explore the applications of social psychological concepts to the law 20 years ago I experienced the delight of discovery similar to that of a child under a Christmas tree It has been satisfying to be among the cohort of researchers who have studied the legal system especially trial juries from a psychological perspective I believe we have learned much that would be useful if the system were to be revised Hlf the system were to be revised there s the rub As I have stated my original motivation was the application of knowledge Like other social scien tists I believed perhaps arrogantly that the results of our research efforts could be used to make trial juries operate with more efficiency accuracy and satisfaction Qver the last two decades much knowledge has accumulated How can we put this knowledge to work Judges are the gatekeepers of the legal system
