

Nursing Scholarship Essay

I am determined to be the best nurse I can be, to be a person of assurance for the patient, to be confident in my skills and abilities to help the patient, and most importantly, to be the patient's advocate and champion for their health and well-being during a time when they cannot do it for themselves. I firmly believe it is the nurse, who has to be 100% committed and who has empathy and compassion, that makes the best nurse and can make the most dramatic difference in a patient's life when they are most vulnerable. That is my dream, my goal, to be that nurse a patient can truly rely on and to do my best to hone my medical skills and knowledge to stay on top of every possible medical option.

Becoming a nurse for me is simply not a job or career choice for me, but a calling. I earned a Bachelor of Arts in Journalism in 2000, always having a love of writing and communication. I worked as a newspaper reporter for 8 years and I loved it. But in 2003, I got married and began my family. Twenty weeks into my first pregnancy, my son was diagnosed with a rare and fatal bone disorder called campomelic dysplasia. I had the awful experience of losing my son and it was shortly thereafter I developed a pulmonary embolism as a result of the trauma during delivery. I spent 12 days in the hospital, on a regimen of Coumadin and heparin, and it was the nurses who tended to me that helped me both physically and emotionally cope with what I was going through. I had multiple visits with the perinatologist before and after I lost my son, and I found inspiration in the nurses I came into contact with. Also having Graves' disease, I eventually had to have a thyroidectomy, and three months after that surgery, I had an emergency appendectomy. To say I was in the hospital and in doctors' offices quite a bit is an understatement. I became fascinated with the world of medicine and the art of nursing. From my curiosity, a calling soon became clear to me.

Medical Press and Circular ,1903 **Science and the Practice of Medicine in the Nineteenth Century** W. F. Bynum, 1994-05-27 Prior to the nineteenth century the practice of medicine in the Western world was as much art as science But argues W F Bynum modern medicine as practiced today is built upon foundations that were firmly established between 1800 and the beginning of World War I He demonstrates this in terms of concepts institutions and professional structures that evolved during this crucial period

applying both a more traditional intellectual approach to the subject and the newer social perspectives developed by recent historians of science and medicine In a wide ranging survey Bynum examines the parallel development of biomedical sciences such as physiology pathology bacteriology and immunology and of clinical practice and preventive medicine in nineteenth century Europe and North America Focusing on medicine in the hospitals the community and the laboratory Bynum contends that the impact of science was more striking on the public face of medicine and the diagnostic skills of doctors than it was on their actual therapeutic capacities

Teaching the Anti-Essay Wesley Phillipson, 2025-10-07 Teaching the Anti Essay helps secondary school English Language Arts/ELA teachers introduce literary nonfiction and creative nonfiction essay writing to their students demonstrating how writing is a fun and engaging activity where students can see tremendous value in thinking on paper. Meaningful essays are also by default analytical. This book offers English teachers and their students 18 different essay prompts that challenge student writers to take calculated risks on paper leading to essays that students can write and want to write allowing them to add something new to the conversation in the process. Each chapter explores a unique essay prompt along with rationale, the targeted skills, teacher models, student models, and reflections. The book is intended to be a tool for change in the English classroom at large by motivating students through tried and tested prompts demonstrating that anyone can write like a journalist, a professional blogger, a creative nonfiction essayist, becoming an author with one's own voice and style. This is a great resource for in-service middle school and high school ELA teachers and beyond.

Hippocrates Now Helen King, 2019-11-14 This book is available as open access through the Knowledge Unlatched programme and is available on www.bloomsburycollections.com. We need to talk about Hippocrates. Current scholarship attributes none of the works of the Hippocratic corpus to him and the ancient biographical traditions of his life are not only late but also written for their own promotional purposes. Yet Hippocrates features powerfully in our assumptions about ancient medicine and our beliefs about what medicine and the physician himself should be. In both orthodox and alternative medicine he continues to be a model to be emulated. This book will challenge widespread assumptions about Hippocrates and in the process about the history of medicine in ancient Greece and beyond and will also explore the creation of modern myths about the ancient world. Why do we continue to use Hippocrates and how are new myths constructed around his name? How do news stories and the internet contribute to our picture of him? And what can this tell us about wider popular engagements with the classical world today in memes, quotes, and online.
