Science Word Wall Regional Center II:

The First Year of Science John Charles Hessler, 1915 **Encyclopaedia of the History of Science, Technology, and Medicine in Non-Western Cultures** Helaine Selin, 2008-03-12 Here at last is the massively updated and augmented second edition of this landmark encyclopedia. It contains approximately 1000 entries dealing in depth with the history of the scientific, technological, and medical accomplishments of cultures outside of the United States and Europe. The entries consist of fully updated articles together with hundreds of entirely new topics. This unique reference work includes intercultural articles on broad topics such as mathematics and astronomy as well as thoughtful philosophical articles on concepts and ideas related to the study of non-Western science such as rationality, objectivity, and method. You'll also find material on religion and science, East and West, and magic and science.

MATERIALS SCIENCE AND ENGINEERING -Volume II Rees D. Rawlings, 2009-12-05. Materials Science and Engineering theme is a component of Encyclopedia of Physical Sciences Engineering and Technology Resources in the global Encyclopedia of Life Support Systems (EOLSS) which is an integrated compendium of twenty-one Encyclopedias. Materials Science and Engineering is concerned with the development and selection of the best possible material for a particular engineering task and the determination of the most effective method of producing the materials and the component. The Theme, with contributions from distinguished experts in the field, discusses Materials Science and Engineering. In this theme, the history of materials is traced and the concept of structure, atomic structure, microstructure, and defect structure and its relationship to properties developed. The theme is structured in five main topics: Materials Science and Engineering; Optimization of Materials Properties; Structural and Functional Materials; Materials Processing and Manufacturing Technologies; Detection of Defects and Assessment of Serviceability. Materials of the Future, which are then expanded into multiple subtopics, each as a chapter. These three volumes are aimed at the following five major target audiences: University and College students; Educators; Professional practitioners; Research personnel; and Policy analysts, managers, and decision makers, and NGOs.

Engaging the Eye Generation Johanna Riddle, 2023-10-10. Literacy in the twenty-first century means more than just reading and writing. Today's students must learn how to interpret and communicate information through a variety of digital and print-based media formats using imagery, online applications, audio, video, and traditional texts.
