Scottish Education Dept,1924 *Elementary Mathematics Curriculum Materials* Janine T. Remillard,Ok-Kyeong Kim,2020-03-16 The book presents comparative analyses of five elementary mathematics curriculum programs used in the U S from three different perspectives the mathematical emphasis the pedagogical approaches and how authors communicate with teachers These perspectives comprise a framework for examining what curriculum materials are comprised of what is involved in reading and interpreting them and how curriculum authors can and do support teachers in this process Although the focus of the analysis is 5 programs used at a particular point in time this framework extends beyond these specific programs and illuminates the complexity of curriculum materials and their role in teaching in general

Our analysis of the mathematical emphasis considers how the mathematics content is presented in each program in terms of sequencing the nature of mathematical tasks cognitive demand and ongoing practice and the way representations are used Our analysis of the pedagogical approach examines explicit and implicit messages about how students should interact with mathematics one another the teacher and the textbook around these mathematical ideas as well as the role of the teacher In order to examine how curriculum authors support teachers we analyze how they communicate with teachers and what they communicate about including the underlying mathematics noticing student thinking and rationale for design elements The volume includes a chapter on curriculum design decisions based on interviews with curriculum authors *The American Report* International Commission on the Teaching of Mathematics,1911 The reports from each committee have a distinctive title I and II Mathematics in the elementary schools of the United States III and IV Mathematics in the public and private secondary schools of the United States V Training of teachers of elementary and secondary mathematics VI Mathematics in the technical secondary schools in the United States VII Examinations in mathematics other than those set by the teacher for his own classes VIII Influences tending to improve the work of the teacher of mathematics IX Mathematics in the technological schools of collegiate grade in the United States X Undergraduate work in mathematics in colleges of liberal arts and universities XI Mathematics at West Point and Annapolis XII Graduate work in mathematics in Universities and in other institutions of like grade in the United States Main report entitled Report of the American Commissioners of the International Commission on the Teaching of Mathematics Report of the Committee of Council on Education in Scotland Great Britain.
