Wilson, Ralph Adler, 2013-09-13 The increasing pace of global conformance towards the adoption of International Financial Reporting Standards (IFRS) highlights the need for accounting students as well as accounting practitioners to be conversant with IFRS. Teaching IFRS offers expert descriptions of and insights into the IFRS convergence process from a teaching and learning perspective. Hence this book is both timely and likely to have considerable impact in providing guidance for those who teach financial reporting around the world. The contents of the book come from authoritative sources and offer something distinctive to complement the existing textbooks which typically focus on the technical aspects of IFRS and their adoption. Drawing upon the experiences of those who have sought to introduce IFRS related classroom innovations and the associated

student outcomes achieved therefrom the book offers suggestions about how to design and deliver courses dealing with IFRS and catalogues extensive listings of IFRS related teaching resources to support those courses This book was originally published as a special issue of Accounting Education An international journal Tax Reporting on Effective Tax Rate (IAS 12) Eva Frehner,2024-09-30 In recent years tax reporting on the effective tax rate ETR of multinational enterprises has been widely debated Annual reports presenting low ETRs created the impression that enterprises did not pay enough taxes compared to individuals or small and medium sized businesses Such financial reporting disclosures led to ongoing discussions about the suitability of the existing international tax system and gave rise to several global tax reforms initiated by the OECD This study analyses the level of compliance with internationally applied best practice for tax reporting on the ETR under the IAS 12 in annual reports based on content analysis scores It studies the correlations between the extent of compliance with tax reporting best practice and ETR values market capitalisation level of internationalisation industry and auditor The author combines the empirical research with a normative approach and thus takes an inside out perspective The normative analysis interprets IAS 12 paragraphs in light of Swiss national and international tax law Furthermore the book discusses the impact of the OECD Global Minimum Tax Reform on tax disclosures and argues that the international tax reform will further increase the complexity of tax reporting *Towards an XBRL-enabled corporate governance reporting taxonomy.* Dirk Beerbaum,2016-05-25 Corporate Governance failures of large corporations such as Lehman Brothers have evoked a plethora of calls for changes in Corporate Governance Principles Despite the fact that after the financial crisis a number of transnational institutions have called for wide scale changes related to Corporate Governance Principles by further protecting share holders rights it has been proven that theoretical extension and reform of Corporate Governance Principles is not enough because it does not ensure successful implementation According to a report from Isaksson 2009 corporate disclosures were not in line with OECD principles on good Corporate Governance Moreover according to Isaksson 2009 the financial crisis can also be traced back to incomplete Corporate Governance disclosures One major implementation topic involves Corporate Governance Reporting which is very complex for multinational companies as it involves statutory compliance with multiple rules and laws coping with heterogeneous Systems of Corporate Governance Weimer and Pape 1999 Leuz et al 2003 Tylecote and Visintin 2007 and additionally the compilation of codes Cadbury 1993 and industry specific standards Mach et al 2006 Bebchuk and Spamann 2010 Extensible Business Reporting Language XBRL is assumed as a benchmark related to interactive business disclosures Chen and Sun 2009 Debreceeny et al 2010 Alles and Piechocki 2012 Does XBRL have the potential to help to reduce the complexity of companies Corporate Governance Reporting Alles and Piechocki 2012 In the academic literature there are many articles which conclude that it is possible for XBRL to enhance transparency and improve Corporate Governance for financial reporting Abdullah et al 2009 Roohani et al 2010 Alles and Piechocki 2012 M ller Wickop et al 2013 therefore an additional question is whether the application of XBRL to the non

financial reporting of Corporate Governance can also contribute to enhanced transparency Within the peer group of listed Foreign Private Issuers on the New York Stock Exchange there is no adequate Taxonomy available *Cutting-Edge Business Technologies in the Big Data Era* Saad G.
