## **Quand Les Corps Se Souviennent:**

**Quand les corps se souviennent** Didier Fassin, 2006 Avec six millions de personnes infectées l'Afrique du Sud est le pays du monde le plus gravement touché par l'épidémie de sida. Elle est aussi le lieu des débats les plus virulents sur les causes et les traitements de la maladie, des mobilisations les plus spectaculaires et des procès les plus retentissants pour l'accès aux médicaments. Que ces faits surviennent dans le contexte de l'après-apartheid dans une nouvelle Afrique du Sud où la reconstruction d'une nation arc-en-ciel affranchie des barrières raciales semblait enfin possible confère à cette situation une tonalité particulièrement dramatique. En ce sens la chronique sud-africaine du sida de ses morts annoncés et de ses polémiques incessantes forme le contrepoint de la Commission vérité et réconciliation qui s'est efforcée de solder un héritage douloureux. Fruit de cinq années d'enquête dans les townships et les anciens homelands comme dans les milieux savants et politiques sud-africains ce livre retrace les enjeux politiques d'une crise épidémiologique qui met en cause les discours de la science autant que la gestion du pouvoir. Il montre partir des biographies de malades et de l'anatomie des controverses comment l'histoire de la colonisation et de la ségrégation demeure vivante dans les inégalités et les violences, dans le racisme et les accusations de racisme. Le passé est intensément présent se dévoilant sans cesse travers une politique de la souffrance et une économie du ressentiment. Il s'agit donc ici de comprendre de la manière la plus littéraire comment les corps se souviennent. Au-delà de la singularité historique de l'Afrique du Sud l'auteur propose ainsi une réflexion sur la mémoire des afflictions collectives dans les sociétés contemporaines et sur l'analyse politique que perpétue notre indifférence à l'égard de ces injustices.

When Bodies Remember Didier Fassin, 2007-03-14 In this book France's leading medical anthropologist takes on one of the most tragic stories of the global AIDS crisis: the failure of the ANC government to stem the tide of the AIDS epidemic in South Africa. Didier Fassin traces the deep roots of the AIDS crisis to apartheid and before that to the colonial period. One person in ten is infected with HIV in South Africa and President Thabo Mbeki has initiated a global controversy by funding questionable medical research casting doubt on the benefits of preventing mother-to-child transmission and embracing dissidents who challenge the viral theory of AIDS. Fassin contextualizes Mbeki's position by sensitively exploring issues of race and genocide that surround this controversy. Basing his discussion on vivid ethnographical data collected in the townships of Johannesburg he passionately demonstrates that the unprecedented epidemiological crisis in South Africa is a demographic catastrophe as well as a human tragedy, one that cannot be understood without reference to the social history of the country, in particular to institutionalized racial inequality as the fundamental principle of government during the past century.
