Natural Sciences Summary

Grade 8 – Term 1

Photosynthesis

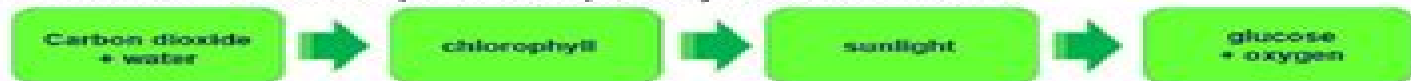

Energy sustains life

- The need for energy to sustain life drives the interactions in ecosystems.
- All living things need energy for life processes, such as growing and moving, as well as staying warm.
- The Sun is the source of energy in ecosystems.
- It provides energy in the form of heat and light.

Plants capture light energy from the Sun

- Plants use light energy from the Sun to combine carbon dioxide from the air and water from the soil to produce glucose, a form of food.
- This process is called photosynthesis and takes place as a series of chemical reactions.
- Oxygen is released into the air as a by-product.
- A by-product is a waste product, or a product made while making something else.
- We can summarize the process of photosynthesis as follows:

Chlorophyll

- Chlorophyll is a special substance in plants that absorbs light energy from the Sun and turns it into a form that the plant can use.
- It is chlorophyll that gives plants their green color.

Plants turn glucose into starch and other things

- Glucose is a sugar and the simplest form of food.
- Plants turn glucose into starch, cellulose and other chemical compounds that they need for processes such as reproduction and growth.
- Starch is a food or energy store.
- There is a lot of starch in seeds.
- Cellulose is the main building material of plants.
- Wood consists of approximately 50% cellulose and cotton lint 90%.

The New Education Cathy N. Davidson,2017-09-05 A leading educational thinker argues that the American university is stuck in the past and shows how we can revolutionize it for our era of constant change Our current system of higher education dates to the period from 1865 to 1925 It was in those decades that the nation s new universities created grades and departments majors and minors all in an attempt to prepare young people for a world transformed by the telegraph and the Model T As Cathy N Davidson argues in *The New Education* this approach to education is wholly unsuited to the era of the gig economy From the Ivy League to community colleges she introduces us to innovators who are remaking college for our own time by emphasizing student centered learning that values creativity in the face of change above all *The New Education* ultimately shows how we can teach students not only to survive but to thrive amid the challenges to come
