Grading for Equity Joe Feldman,2023-08-26 For some time traditional A F grading practices have been under fire from a wide range of stakeholder Grading policies are wildly inconsistent from classroom to classroom frequently misguided uninformed and frequently based on subjective judgments Of even more concern our grading practices exacerbate the achievement gap It is well documented that African American and Latino students boys as well as special education students are disproportionately suspended and expelled influenced by teachers unconscious but biased judgments of student behavior Virtually ignored is how teachers incorporate subjective and non academic criteria into their grades through criteria such as student attitude participation and effort and how approach to grading contributes to these same students disproportionately high course failure rates and disproportionately low placement in advanced academic tracks
