African Rhino Richard Emslie,1999 The black and the white rhinoceros have become flagship species for international conservation They are significant not only for the continuation of a major evolutionary heritage but also as symbols for the protection of African savannahs The battle for the survival of these species has been marked by some notable successes and sadly many failures and the situation is still critical The international horn trade ban and the domestic bans imposed in most traditional user states have driven the trade further underground in some cases inflating prices and making illegal dealing even more lucrative This Plan is aimed at donors government and non government organizations and all those involved in rhino conservation It outlines the actions and strategies needed to catalyse support for these majestic animals and help secure their future in sub Saharan Africa The overall conclusion is that given the political will stability and adequate field expenditure rhinos can be conserved in the wild

[Video-Based Aural Rehabilitation Guide](#) Linda L. Daniel,Sneha V. Bharadwaj,2019-10-21 The Video Based Aural Rehabilitation Guide Enhancing Listening and Spoken

Language in Children and Adults is the first aural rehabilitation book of its kind to intertwine chapter text with over 200 captioned videos. This unique resource is intended to educate undergraduate and graduate students in speech language pathology, audiology, and education of the deaf and hard of hearing, as well as enhance the knowledge and skills of practicing professionals. The extensive videos are also an invaluable resource for students enrolled in a clinical or student teaching practicum. Videos feature speech language pathologists, audiologists, Listening and Spoken Language Specialists, teachers of the deaf and hard of hearing, early interventionists, otologists, and occupational therapists practicing in settings such as clinics, private practices, schools, hospitals, and the community. Topics addressed in the text and videos include hearing technologies, aural rehabilitation procedures, factors that affect intervention outcomes, fundamentals of assessment, supports for education, counseling for children and adults with hearing loss, and the psychosocial well-being of persons with hearing loss and their families. The Video Based Aural Rehabilitation Guide can be used as a stand-alone text or as a companion alongside the most frequently used aural rehabilitation textbooks. Key Features: Over 200 captioned videos accessible on a companion site; Collaboration among 14 professionals in audiology, speech language pathology, Listening and Spoken Language medicine, education, research, and psychology; Chapters with concise summaries, recommended resources for further learning, and study questions with answer keys; Background information on the individuals featured in the videos. This exciting new text with instructional videos is a much-needed bridge that integrates the disciplines of speech language pathology, audiology, and education of the deaf and hard of hearing to educate professionals serving children and adults with hearing loss and their families. NOTE: This ebook has 200 embedded videos, which could make it slower to download and open than a text-only ebook.

Books Out Loud, 2004 **Mammals of Africa: Volume V** Jonathan Kingdon, 2014-11-20. Mammals of Africa MoA is a series of six volumes which describes in detail every currently recognized species of African land mammal. This is the first time that such extensive coverage has ever been attempted, and the volumes incorporate the very latest information and detailed discussion of the morphology, distribution, biology, and evolution, including reference to fossil and molecular data of Africa's mammals. With more than 1,160 species and 16-18 orders, Africa has the greatest diversity and abundance of mammals in the world. The reasons for this and the mechanisms behind their evolution are given special attention in the series. Each volume follows the same format with detailed profiles of every species and higher taxa. The series includes hundreds of colour illustrations and pencil drawings by Jonathan Kingdon, highlighting the morphology and behaviour of the species concerned, as well as line drawings of skulls and jaws by Jonathan Kingdon and Meredith Happold. Every species also includes a detailed distribution map. Edited by Jonathan Kingdon, David Happold, Tom Butynski, Mike Hoffmann, Meredith Happold, and Jan Kalina, and written by more than 350 authors, all experts in their fields, Mammals of Africa is as comprehensive a compendium of current knowledge as is possible. Extensive references alert readers to more detailed information. Volume V, edited by Jonathan Kingdon and Michael Hoffmann, comprises 83 species of carnivores and includes
