The Australian Policy Handbook Glyn Davis, Catherine Althaus, 2020-07-16 Public policy permeates every aspect of our lives. It is the stuff of government justifying taxes, driving legislation and shaping our social services. Public policy gives us roads, railways and airports, emergency services, industry development and natural resource management. While politicians make the decisions, public servants provide analysis and support for those choices. Drawing on their extensive practical experience, the authors outline the processes used in making public policy. They systematically explain the relationships between political decision makers, public service advisers, other community participants and those charged with implementing the programs that result. The sixth edition of this widely used introduction is fully updated and includes new material on the professionalisation of politicians, the role of opposition members, loss of corporate memory in the public service, addressing systemic policy failure, nudge economics and the impact of social media and the sharing economy on policy making and government. An invaluable guide for practitioners, academics and students to the craft of policy analysis, development and evaluation. It is an important resource for those with a commitment to sound evidence-based public policy. Ken Smith, ANZSOG CEO and Dean. An enduring and important contribution to the field. Althaus, Bridgman and Davis, pioneering policy cycle approach, continues to offer vital insights into the policy making process in Australia and internationally. Lisa Paul, AO, PSM, Former Secretary of the Department of Education.

Access to work for disabled persons in South Africa: A rights critique Meryl Candice du Plessis, 2017-06-22 Assumptions of inability and the perceived costs of employing disabled persons are two of the primary reasons why it has been impossible or difficult for many capable disabled persons to access work and to continue working. This book considers the South African legal framework that seeks to promote such access and critiques it with particular reference to the intersections of the rights to equality and access to social security. One of the primary arguments is the need for a more active conception of social security in which access to work for disabled persons is recognised as an integral component of promoting both social security and substantive equality.

Afterimages of Apartheid Kylie Thomas, 2025-10-29 *Afterimages of Apartheid* shows how photographs of the past can be mobilised as a critical tool for understanding the ongoing effects of apartheid in contemporary South Africa. Through close readings of significant images made during and after apartheid, the book shows how photography works as a means of documentation, commemoration and resistance. Written by one of South Africa's leading scholars of visual history, the book considers the ways in which photographs can be used to contest impunity for state violence. *Afterimages* includes chapters on the Sharpeville and Marikana massacres, on the re-opening of cases of human rights violations that remain unresolved in the aftermath of the South African Truth and Reconciliation Commission, and on contemporary protests against the post-apartheid state. The book makes a powerful case for the role of photographs in drawing the viewer into the past time they represent, issuing a call to the living to remember, respond and react. This vivid account of the photography of apartheid will be of interest to students and researchers across the fields of South African history, visual studies, memory studies, art history.
