"May the force be with you"

Luke Skywalker, the protagonist of the original Star Wars trilogy, is an extremely determined person. First of all, when Luke is confronted with undertaking the task of becoming a Jedi, he perseveres. Although he has just discovered that his aunt and uncle are dead on the planet Tatooine, Luke proceeds with his training. Furthermore, Luke continues his training even after his teacher and friend, Obi-Wan Kenobi, is killed by the evil Darth Vader. After this happens, Luke feels very much alone because he believes that he is the only Jedi left in the universe; however, Luke continues on his mission in spite of this feeling. As the trilogy continues, Luke is faced with numerous obstacles that test his will to go on. In the final episode, Luke must kill Darth Vader. Although he discovers that Darth Vader is his father, Luke knows that he must return to the Death Star to engage Darth Vader in a light saber battle that will finally declare a winner in the battle of good and evil. Without Luke's determination, the universe would have succumbed to the wrath of the dark side.
