Autonomy and the Self Michael Kühler, Nadja Jelinek, 2012-11-28 This volume addresses the complex interplay between the conditions of an agent s personal autonomy and the constitution of her self in light of two influential background assumptions a libertarian thesis according to which it is essential for personal autonomy to be able to choose freely how one s self is shaped on the one hand and a line of thought following especially the seminal work of Harry Frankfurt according to which personal autonomy necessarily rests on an already sufficiently shaped self on the other hand Given this conceptual framework a number of influential aspects within current debate can be addressed in a new and illuminating light accordingly the volume s contributions range from 1 discussing fundamental conceptual interconnections between personal

autonomy and freedom of the will 2 addressing the exact role and understanding of different personal traits e.g. Frankfurt's notion of volitional necessities commitments to norms and ideals emotions the phenomenon of weakness of will and psychocorporeal aspects 3 and finally taking into account social influences which are discussed in terms of their ability to buttress to weaken or even to serve as necessary preconditions of personal autonomy and the forming of one's self The volume thus provides readers with an extensive and most up to date discussion of various influential strands of current philosophical debate on the topic It is of equal interest to all those already engaged in the debate as well as to readers trying to get an up to date overview or looking for a textbook to use in courses

Develops verbal non verbal written and interpersonal communication skills essential for effective professional and academic interactions *Dying for Ideas* Costica Bradatan,2015-02-26 What do Socrates Hypatia Giordano Bruno Thomas More and Jan Patocka have in common First they were all faced one day with the most difficult of choices stay faithful to your ideas and die or renounce them and stay alive Second they all chose to die Their spectacular deaths have become not only an integral part of their biographies but are also inseparable from their work A death for ideas is a piece of philosophical work in its own right Socrates may have never written a line but his death is one of the greatest philosophical best sellers of all time Dying for Ideas explores the limit situation in which philosophers find themselves when the only means of persuasion they can use is their own dying bodies and the public spectacle of their death The book tells the story of the philosopher s encounter with death as seen from several angles the tradition of philosophy as an art of living the body as the site of self transcending death as a classical philosophical topic taming death and self fashioning finally the philosophers scapegoating and their live performance of a martyr s death followed by apotheosis and disappearance into myth While rooted in the history of philosophy Dying for Ideas is an exercise in breaking disciplinary boundaries This is a book about Socrates and Heidegger but also about Gandhi s fasting unto death and self immolation about Girard and Passolini and self fashioning and the art of the essay
