Discourses of Globalisation and Higher Education Reforms Joseph Zajda, W. James Jacob, 2022-03-15 This book examines some of the major higher education reforms and policy shifts globally particularly in the light of recent shifts in quality and standards driven education and policy research It critiques the neo liberal ideological imperatives of current higher education and policy reforms and illustrates the way that changes in the relationship between the state and higher education policy affect current trends in higher education reforms Using diverse comparative education paradigms from critical theory to historical comparative research the chapters focus on globalisation ideology and higher education reforms and examine both the reasons and outcomes of higher education reforms and policy change The book analyses and evaluates the policy shifts in methodological approaches to globalisation and higher education reforms and their impact on education policy and pedagogy The book contributes in a very scholarly way to a more holistic understanding of the nexus between globalisation comparative education research and higher education reforms **Law, Religion, Health and Healing in Africa** M. Christian Green, Faith Kabata, Fortune Sibanda, 2022-12-31 The Covid 19 pandemic was global in its spread and reach as well as in its medical social and economic effects In many respects the global effort to flatten the curve produced a flattening of experience around the world and a striking coincidence of similar experiences in countries the world over The identity simultaneity and uniformity of experience were also manifest in common concerns at the intersection of law and religion in many nations around the world including Africa The lockdowns and closure of religious worship centres churches mosques and religious organisations of all sorts raised questions of freedom of religion and the related concern for freedom of assembly along with concerns about the relation of religion to science and public health religious channels of communication and religious provision of social services After all health communications and social services are all areas in which African religious organisations play key roles Potential tensions around these issues raised further considerations about the nature of religion state relations the status of religious authority and whether religious and state actors would work together or at odds in addressing the Covid 19 pandemic **Global Land Use Intensity Change and Its Impact on**

Food Security Xueru Zhang, Wei Song, Jinmei Lu, Basanta Paudel, Q. Yuan, 2025-09-18 Food security is an important guarantee for world peace and development and has a bearing on the sustainable development and future destiny of humankind The 2023 State of Food Security and Nutrition in the World report released by the Food and Agriculture Organization of the United Nations FAO shows that between 691 and 783 million people worldwide were hungry in 2022 Although the increase in the number of hungry people in the world has slowed down there are still many regions of the world that are sinking deeper into the food crisis If left unchecked the world will not be on track to meet the Sustainable Development Goal of eradicating hunger by 2030 Food security continues to be a global challenge Food security is based on the food system and when the food system is under stress the level of food security is reduced This stress comes from a variety of factors including land use change Land use change and its impacts have become a hotspot and frontier of global change research With the development of human society the structure depth and intensity of land use are constantly changing which directly affects the issue of food security There is a close relationship between regional food security and land use change This Research Topic focuses on land use intensity change and its implications for food security

Cultural Heritage Management in Africa George Okello Abungu, Webber Ndoro, 2022-12-15 Cultural Heritage Management in Africa explores the diversity of Africa's cultural heritage by analysing how and why this heritage has been managed and by considering the factors that continue to influence management strategies and systems throughout the African continent Including contributions from prominent scholars and heritage professionals working across Africa the volume presents critical contemporary perspectives on the state of heritage in the area Chapters analyse the practices that emanated from different colonial experiences and consider what impact these had and continue to have on the management of African heritage It also critically examines the ideological influence of independence movements on the African continent's management and remembering of heritage and considers whether there are any differences in heritage management between countries that experienced armed conflicts and those that did not The volume will be the first to critically assess the state of heritage management now at a time when vital conversations about the balance between heritage and development is ongoing and the actions of new players have begun to impact the management and practice of heritage in the region Cultural Heritage Management in Africa will be essential reading for those engaged in the study of museums and heritage development archaeology anthropology history and African studies It will also be of interest to heritage and museum professionals who wish to learn more about the decolonisation of heritage

Conflictology Francis Onditi, 2020-05-28 Over the past three decades scholars students and policy makers studying and engaged in conflict resolution have veered between conflict management and resolution However the changing nature of conflict which is taking the form of radicalization and extremism are deeply rooted in individual's ideology personalities and genes hence rendering the conventional macro level power balance analytics obsolete The psychology and human genetics are at the center of this evolution This shift in conflict

trends and methods of warfare in Africa and the world over demands that we search for alternative approaches mechanisms and innovative response It is against this background that this new book initiates a fundamental debate on how interdisciplinary adventure could increase the understanding of man kind and the socio biological systems surrounding man hence the emphasis on the discipline of Conflictology to embody scientific approaches methods and prescription to conflict resolution For instance does individual s gene influence human behaviours such as hate If so can this be corrected through gene transposition If human relations should be anchored on peace what are these genetic and behavioural factors that creat hate and violence How then should such a gene or neurobiological system be altered in order to prevent extremism and radicalization

Peace Through Entrepreneurship Steven R. Koltai, 2016-08-30 Joblessness is the root cause of the global unrest threatening American security Fostering entrepreneurship is the remedy The combined weight of American diplomacy and military power cannot end unrest and extremism in the Middle East and other troubled regions of the world Steven Koltai argues Koltai says an alternative approach would work investing in entrepreneurship and reaping the benefits of the jobs created through entrepreneurial startups From 9 11 and the Arab Spring to the self proclaimed Islamic caliphate instability and terror breed where young people cannot find jobs Koltai marshals evidence to show that joblessness not religious or cultural conflict is the root cause of the unrest that vexes American foreign policy and threatens international security Drawing on Koltai s stint as senior adviser for Entrepreneurship in Secretary Hillary Clinton s State Department and his thirty year career as a successful entrepreneur and business executive Peace through Entrepreneurship argues for the significant elevation of entrepreneurship in the service of foreign policy not rural microfinance or mercantile trading but the scalable stuff of Silicon Valley and Sam Walton generating the vast majority of new jobs in economies large and small Peace through Entrepreneurship offers a nonmilitary long term solution at a time of disillusionment with Washington s big development approach to unstable and underdeveloped parts of the world and when the new normal is fear of terrorist attacks against Western targets beheadings in Syria and jihad Extremism will not be resolved by a war on terror The answer Koltai shows is stimulating entrepreneurial economic opportunities for the virtually limitless supply of desperate unemployed young men and women leading lives of endless economic frustration

Zanzibar Was a Country Nathaniel Mathews, 2024-04-09 Zanzibar Was a Country traces the history of a Swahili speaking Arab diaspora from East Africa to Oman In Oman today whole communities in Muscat speak Swahili have recent East African roots and practice forms of sociality associated with the urban culture of the Swahili coast These Omani Zanzibaris offer the most significant contemporary example in the Gulf as well as in the wider Indian Ocean region of an Afro Arab community that maintains a living connection to Africa in a diasporic setting While they come from all over East Africa a large number are postrevolution exiles and emigr s from Zanzibar Their stories provide a framework for the broader transregional entanglements of decolonization in Africa and the Arabian Gulf Using both vernacular historiography and life histories of men and women from

the community Nathaniel Mathews argues that the traumatic memories of the Zanzibar Revolution of 1964 are important to nation building on both sides of the Indian Ocean
