intricacies through dense explanation across thousands of pages Others seek to provide an overview of IFRS and these while useful for the general reader lack the depth required by practitioners and students IFRS Essentials strikes a balance between the two extremes offering concise interpretation of the crucial facts supported by a wealth of examples Problems and their solutions are demonstrated in a manner which is short straightforward and simple to understand avoiding complex language jargon and redundant detail This book is suitable for students and lecturers at universities and other educational institutions auditing and accounting trainees and employees in the area of accounting and auditing who seek to develop their practical skills and deepen their knowledge of IFRS **Boardroom Behaviour and the Law** Samet Caliskan,Pereowei

Subai,2025-03-28 This book examines how various areas of law collectively influence the relationship between a company and its directors particularly in safeguarding the long term interests of stakeholders Directors inappropriate actions can expose a company to significant corporate risks particularly in relation to regulatory violations such as breaches of competition law When directors engage in such misconduct company law and corporate governance provide certain control mechanisms that allow the company to manage these risks Additionally directors can be discouraged from engaging in such behaviour by the threat of being held accountable for violations of competition law This book evaluates various tools designed to regulate directors behaviours and ensure accountability questioning whether the legal frameworks strike the right balance between corporate liability and personal accountability It argues that these mechanisms do not sufficiently protect the long term interests of stakeholders and that shortcomings in the law leave companies vulnerable to directors misconduct which cannot be adequately addressed through traditional risk management strategies This book will be of interest to researchers in the field of corporate law competition law and corporate governance
