A QlikView report does not match the legacy report it was designed to replace. The purpose of the report is to count the number of customers per year and in total.

Why is there a difference between the Total row values in the two reports?

- ☐ A. The legacy report totals the number of customers correctly, while the QlikView report is dropping records
- ☐ B. The legacy report calculates the total customer occurrences, while the QlikView report calculates the customer ranking
- ☐ C. The legacy report calculates the total customer occurrences, while the QlikView report counts only distinct customers
- ☐ D. The legacy report totals the number of customers correctly, while the QlikView total row is set to Sum of rows
