Qualite Loi Albertini Pierr:

Outsourcing Rulemaking Powers Cedric Jenart, 2022-01-20 Within democratic states parliaments have always been regarded as playing a pivotal role in the creation of rules Through its composition parliament represents the opinions and interests of society which it serves through the legislative process But in an increasingly globalized world nation states are confronted with issues that require international cooperation expert knowledge and flexibility to resolve Rather than taking the lead parliaments are increasingly settling for a managerial position and have begun to outsource their rulemaking powers and other constitutional responsibilities rather than exercising them themselves *Outsourcing Rulemaking Powers* identifies the shared constitutional principles that determine the limits to the outsourcing of rulemaking powers It asks fundamental questions of its readers such as which powers should be outsourced And to whom What mechanisms are in place to guarantee the quality of the rules they make Through the examination of multiple countries this book argues that there should be minimal legal safeguards to which all rules must heed in particular those made by autonomous public or private actors Offering a bridge between traditional constitutional law and transnational private law this book will be of interest to both practitioners and scholars within the global communities of comparative constitutionalism global administrative law and transnational private law

Institutional Translation and Interpreting Fernando Prieto Ramos, 2020-11-17 This collection brings together new insights around current translation and interpreting practices in national and supranational settings The book illustrates the importance of further reflection on issues around quality and assessment given the increased development of resources for translators and interpreters The first part of the volume focuses on these issues as embodied in case studies from a range of national and regional contexts including Finland Switzerland Italy Spain and the United States The second part takes a broader perspective to look at best practices and questions of quality through the lens of international bodies and organizations and the shifting roles of translation and interpreting practitioners in working to manage these issues Taken together this collection demonstrates the relevance of critically examining processes competences and products in current institutional translation and interpreting settings at the national and supranational levels paving the way for further research and quality assurance strategies in the field The Introduction Chapter 7 and Conclusion of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
