Research Projects for Business & Management Students Siah Hwee Ang, 2021-01-27 This second edition of *Research Projects for Business and Management Students* provides students undertaking extended research with a foundation upon which to build their practice. The author sets out each stage of a research project systematically to allow you to follow along and build an understanding of the processes involved in carrying out in depth pieces of research as well as the functions of commonly used research methods. Conversation boxes throughout will also help situate your learning by providing examples of commonly asked questions, challenges that may occur while you carry out your research, and guidance on how to answer them. Professor Siah Hwee Ang is Professor of International Business and Strategy, inaugural Chair in Business in Asia, and Director of the NZ's Southeast Asia Centre of Asia Pacific Excellence at Victoria University of Wellington, New Zealand.

Overcoming Project Management Problems Aamir Dawawala, 2009-09-17 Research Paper postgraduate from the year 2009 in the subject Business economics Business Management Corporate Governance grade 68 100 language English abstract Project Management in software development has become extremely complex due to the rapid business changes and technology updates. Triggered by multiple project failures, this report describes adjustment for the existing project management processes followed by FTME to overcome contemporary challenges. FTME is an IT vendor based in Dubai providing IT solutions to multiple customers in the region. The problem identified is the predefined uncalculated constraints customers impose on vendors as the condition for the project to be awarded. The research drills down in Agile standard process and PMI methodology to recommend appropriate changes in the existing internal processes that will assist in overcoming the constraints. It has analysis of multiple IT vendor experts on the same subject and interview feedback as qualitative analysis to further support the findings. The recommendations include redefining project success criteria to properly assess project failure attributes, appropriate project selection, and existing process enhancement using Agile process as a base.
