Quebec Introduction Pratique:

A Short History of Quebec John A. Dickinson, Brian Young, 2008-09-19 John A Dickinson and Brian Young bring a refreshing perspective to the history of Quebec focusing on the social and economic development of the region as well as the identity issues of its diverse peoples This revised fourth edition covers Quebec's recent political history and includes an updated bibliography and chronology and new illustrations A Canadian classic A Short History of Quebec now takes into account such issues as the 1995 referendum recent ideological shifts and societal changes considers Quebec's place in North America in the light of NAFTA and offers reflections on the Gérard Bouchard Charles Taylor Commission on Accommodation and Cultural Differences in 2008

Epidemics, Empire, and Environments Michael Zeheter, 2016-01-20 Throughout the nineteenth century cholera was a global scourge against human populations Practitioners had little success in mitigating the symptoms of the disease and its causes were bitterly disputed What experts did agree on was that the environment played a crucial role in the sites where outbreaks occurred In this book Michael Zeheter offers a probing case study of the environmental changes made to fight cholera in two markedly different British colonies Madras in India and Quebec City in Canada The colonial state in Quebec aimed to emulate British precedent and develop similar institutions that allowed authorities to prevent cholera by imposing quarantines and controlling the disease through comprehensive change to the urban environment and sanitary improvements In Madras however the provincial government sought to exploit the colony for profit and was reluctant to commit its resources to measures against cholera that would alienate the city's inhabitants It was only in 1857 after concern rose in Britain over the health of its troops in India that a civilizing mission of sanitary improvement was begun As Zeheter shows complex political and economic factors came to bear on the reshaping of each colony's environment and the urgency placed on disease control

Catholic Origins of Quebec's Quiet Revolution, 1931-1970 Michael Gauvreau, 2005-11-14 The Catholic Origins of Quebec's Quiet Revolution challenges a version of history central to modern Quebec's understanding of itself that the Quiet Revolution began in the 1960s as a secular vision of state and society which rapidly displaced an obsolete clericalized Catholicism Michael Gauvreau argues that organizations such as Catholic youth movements played a central role in formulating the Catholic ideology underlying the Quiet Revolution and that ordinary Quebecers experienced the Quiet Revolution primarily through a series of transformations in the expression of their Catholic identity Providing a new understanding of Catholicism's place in twentieth century Quebec Gauvreau reveals that Catholicism was not only increasingly dominated by the priorities of laypeople but was also the central force in Quebec's cultural transformation He makes it clear that from the 1930s to the 1960s the Church espoused a particularly radical understanding of modernity especially in the areas of youth gender identities marriage and family

Language, Citizenship and Identity in Quebec L. Oakes, J. Warren, 2007-01-05 Globalization is calling for new conceptualizations of belonging within culturally diverse communities Quebec driven by the pressures of maintaining Francophone identity and accommodating migrant groups provides a fascinating case study of how to foster a sense of belonging

Competence and Program-based Approach in Training Catherine Loisy, Jean-Claude Coulet, 2018-12-18 The controversies that have developed in recent years in the field of education and training around program and competency based approaches are not without reminiscent of those which are at the origin of a reflection on the question of methods to monitor control organize and shape innovation in science and technology and led to the emergence of the notion of responsibility for innovation and research Pell Reber 2015 This book is clearly part of this type of approach Starting from a current state of play on the issues and controversies raised by curricular and competency based approaches Chapters 1 and 2 this book aims at presenting new theoretical frameworks allowing to account for the processes implied by the implementation of these pedagogical innovations and in particular those which at the very heart of the skills mobilized promote a responsibility dimension Based on a developmental approach to individual and collective competencies and their evaluation Chapters 3 4 and 5 it attempts to show how this approach can mobilize educational practices on strong societal issues such as sustainable development Chapter 5 Lastly it aims to provide theoretical and practical benchmarks to help engage educational teams and institutions in these innovative and responsible approaches by providing a coherent framework for doing so Chapters 6 7 and 8

Quebec and Its Historians Serge Gagnon, 1998-03-24 Priest ridden and church dominated OCo that is what most Canadians thought about Quebec social and intellectual life until recently For a century historical scholarship did not escape clerical influence nor that nationalism which emanated from a people conscious that their nation had been defeated and colonized by the British Bring on the Jesuits and their devotion to the Church French civilization and the conversion of the Amerindians That era has now passed as Université du Québec historian Serge Gagnon reveals in this searching study of Quebec historiography during the past quarter century In the persons of Louise Dechenne and Fernand Ouellet Quebec has produced two of the most innovative and imaginative practitioners of the new social history Not only are the questions asked of the past much more intriguing but these two historians have assiduously mined new primary sources in order to provide fresh approaches that clarify our understanding of QuebecOCOs evolution Gagnon is best at providing a penetrating evaluation and critique of the work of these two major historians His book is a series of particular studies rather than a comprehensive synthesis The author is relatively unconvincing in his attempt to draw associations between the OC Quiet RevolutionOCO of the 1960s and the historical craft His chapter on changing views of the Canadian sixteenth century fails to pull together the earlier historians that he discusses with more recent ones Sometimes he falls into the common vice of the

historiographer by lapsing into bibliography Gagnon's fine analyses of the work of Dechenne and Ouellet make this a valuable study for anyone interested in the interpretation of history What the book so clearly shows is that what each generation considers as history is deeply rooted within intellectual traditions and contemporary concerns The translation is commendable but does anyone know what OC economism is
