Quem Tudo Conta Portuguese Edition:

Anna Livia Plurilingual Patrick O'Neill, 2025-05-16 The complexity of James Joyce's *Finnegans Wake* ensures that it cannot be translated rather it can only be rewritten These rewritings vary significantly and the extent of their differences both within individual target languages and across multiple languages invites further exploration *Anna Livia Plurilingual* is a study of a Joycean macrotext that provides a detailed comparative analysis of multiple translations of selected excerpts from Joyce's iconic *Anna Livia Plurabelle* 1928 which was later incorporated into *Finnegans Wake* 1939 Patrick O'Neill examines how these translations function as independent texts rather than mere derivatives of the original highlighting the creative and interpretative choices made by translators While the concept of a literary macrotext could in principle encompass all reader responses this work specifically focuses on translations emphasizing comparative readings of the original text alongside its diverse interpretations O'Neill's investigation not only illuminates the intricacies of Joyce's language and the complexities of the resulting macrotext but also offers valuable insights into the broader field of literary translation studies

The Literary Institution in Portugal Since the Thirties Margarida Rendeiro, 2010 Despite the numerous studies of the politics economy culture and society of the Estado Novo the relations established between publishers authors and governmental institutions and their contribution to the making of the literary canon are still marginal subjects of analysis Based on the systems theories developed by Bourdieu Dubois and Even Zohar this study focuses on the cultural production produced during the Estado Novo 1933 1974 and after the Revolution 1974 2004 within their political economic and social framework The chapters on Jos Saramago and Jos Lu's Peixoto show them as examples of literary consecration that confirm the systemic relations in the Portuguese literary field This research makes use of a survey on habits of purchase of Portuguese fiction interviews with publishers original statistical analyses and takes a new approach to the study of Portuguese literature

Finnegans Wakes Patrick O'Neill, 2022-03-01 James Joyce's astonishing final text *Finnegans Wake* 1939 is universally acknowledged to be entirely untranslatable And yet no fewer than fifteen complete renderings of the 628 page text exist to date in twelve different languages altogether and at least ten further complete renderings have been announced as underway for publication in the early 2020s in nine different languages *Finnegans Wakes* delineates for the first time in any language the international history of these renderings and discusses the multiple issues faced by translators The book also comments on partial and fragmentary renderings from some thirty languages altogether including such perhaps unexpected languages as Galician Guarani Chinese Korean Turkish and Irish not to mention Latin and Ancient Egyptian Excerpts from individual renderings are analysed in detail together with brief biographical notes on numerous individual translators Chronicling renderings spanning multiple decades *Finnegans Wakes* illustrates the capacity of Joyce's final text to generate an inexhaustible multiplicity of possible meanings among the ever increasing number of its impossible translations
