Congress. House. Interstate and Foreign Commerce,1969 **The Government of Markets** Rasheed Saleuddin,2018-12-21 Absent evidence to the contrary it is usually assumed that US financial markets developed in spite of government attempts to regulate and therefore laissez faire is the best approach for developing critically important and enduring market institutions This book makes heavy use of extensive archival sources that are no longer publicly available to describe in detail the discussions inside the CBOT and the often private and confidential negotiations between industry leaders and government officials This work suggests that contrary to the accepted story what we now know of as modern futures markets were heavily co constructed through a meaningful long term collaboration between a progressive CBOT leadership and an extremely knowledgeable and pragmatic US federal government The industry leaders had a difficult time evolving the modern institutions in the face of powerful reactionary internal forces Yet in the end the CBOT by co opting and cooperating with federal officials led the exchange and Chicago markets in general to a near century of global dominance On the federal government side knowledgeable technocrats and inspired politicians led an information and analysis explosion while interacting with industry both formally and informally to craft better markets for all **How Does Collaborative Governance Scale?** Chris Ansell,Jacob Torfing,2018-01-11 Scale is an overlooked issue in the research on interactive governance This book takes up the important task of investigating the scalar dimensions of collaborative governance in networks partnerships and other interactive arenas and explores the challenges of operating at a single scale across or at multiple scales and of moving between scales First published as a special issue of Policy Politics the volume explores the role of scale and scaling in a wide range of policy areas including employment policy water management transportation planning public health university governance artistic markets child welfare and humanitarian relief Cases are drawn from Asia Australia Europe and North and South America and span all levels from local to global Together the theoretical framework and the empirical case studies sensitize us to the tensions that arise between scales of governance and to the challenges of
