

ROTATIONAL DYNAMICS

- Q.1 A wheel, of radius 1 m, is rolling purely on a flat, horizontal surface. It's centre is moving with a constant horizontal acceleration $= 3 \text{ m/s}^2$. At a moment when the centre of the wheel has a velocity 3 m/s , then find the acceleration of a point $1/3 \text{ m}$ vertically above the centre of the wheel.
- Q.2 A rigid body in shape of a triangle has $v_A = 5 \text{ m/s} \downarrow$, $v_B = 10 \text{ m/s} \downarrow$. Find velocity of point C.
- Q.3 Two masses each of m are attached at mid point B & end point C of massless rod AC which is hinged at A. It is released from horizontal position as shown. Find the force at hinge A when rod becomes vertical.
- Q.4 An isosceles right triangular plate ABC of mass m is free to rotate in vertical plane about a fixed horizontal axis through A. It is supported by a string such that the side AB is horizontal. Find the reaction at the support A.
- Q.5 A particle of mass m is projected with a velocity u at an angle of θ with horizontal. Find the initial angular momentum of the particle about the highest point of its trajectory.
- Q.6 A uniform rod of length l is given an impulse at right angles to its length as shown. Find the distance of instantaneous centre of rotation from the centre of the rod.
- Q.7 A particle of mass 1 kg is moving with constant velocity of 10 m/s along the straight line $y = 7x + 4$. Find the angular momentum of the particle with respect to the point $(3, 4)$.
- Q.8 Two discs A and B touch each other as in figure. A rope tightly wound on A is pulled down at 2 m/s^2 . Find the friction force between A and B if slipping is absent.
- Q.9 A uniform rod AB of length L and mass m is suspended freely at A and hangs vertically at rest when a particle of same mass m is fired horizontally with speed v to strike the rod at its mid point. If the particle is brought to rest after the impact. Then find the impulsive reaction at A.
- Q.10 A solid cylinder is released from rest from the top of an inclined plane of inclination 60° where friction coefficient varies with distance x as $\mu = \frac{2-3x}{\sqrt{3}}$. Find the distance travelled by the cylinder on incline before it starts slipping.
- Q.11 Two men, each of mass 75 kg , stand on the rim of a horizontal large disc, diametrically opposite to each other. The disc has a mass 450 kg and is free to rotate about its axis. Each man simultaneously start along the rim clockwise with the same speed and reaches their original starting points on the disc. Find the angle turned through by the disc with respect to the ground.
- Q.12 A solid sphere of radius $3R$, a solid disc of radius $2R$ and a ring of radius R (all are of mass m) roll down a rough inclined plane. Their accelerations are a , b and c respectively. Find the ratio of a/b and b/c .
- Q.13 A uniform disc of radius 1 m and mass 2 kg is mounted on an axle supported on fixed frictionless bearings. A light cord is wrapped around the rim of the disc and a mass of 1 kg is tied to the free end. If it is released from rest, then find the tension in the cord.
- Q.14 A uniform disc of mass m and radius R rotates about a fixed vertical axis passing through its centre with angular velocity ω . A particle of same mass m and having velocity $2\omega R$ towards centre of the disc collides with the disc moving horizontally and sticks to its rim. Find
- (a) the angular velocity of the disc. (b) the impulse on the particle due to disc.
- (c) the impulse on the disc due to hinge.

King expands with diagrams on how free energy and anti gravity are possible The theories of zero point energy maintain there are tremendous fluctuations of electrical field energy embedded within the fabric of space King explains the following topics Tapping the Zero Point Energy as an Energy Source Fundamentals of a Zero Point Energy Technology Vacuum Energy Vortices The Super Tube Charge Clusters The Basis of Zero Point Energy Inventions Vortex Filaments Torsion Fields and the Zero Point Energy Transforming the Planet with a Zero Point Energy Experiment Dual Vortex Forms The Key to a Large Zero Point Energy Coherence Packed with diagrams patents and photos With power shortages now a daily reality in many parts of the world this book offers a fresh approach very rarely mentioned in the mainstream media **Astronomy: The Human Quest for Understanding** Dale A. Ostlie, 2022-09-07 Since humans first looked up at the stars astronomy has had a particular ability to stir the imagination and challenge the thinking of scientists and non scientists alike Astronomy The Human Quest for Understanding is an introductory astronomy textbook specifically designed to relate to non science majors across a wide variety of disciplines nurture their curiosity and develop vital science based critical thinking skills This textbook provides an introduction to how science operates in practice and what makes it so successful in uncovering nature s secrets Given that the study of astronomy dates back thousands of years it is the ideal subject for tracing the development of the physical sciences and how our evolving understanding of nature has influenced and been influenced by mathematics philosophy religion geography politics and more This historical approach also illustrates how wrong turns have been taken and how the inherent self correcting nature of science through constant verification and the falsifiability of truly scientific theories ultimately leads us back to a more productive path in our quest for understanding This approach also points out why as a broadly educated citizenry students of all disciplines must understand how scientists arrive at conclusions and how science and technology have become central features of modern society In discussing this fascinating and beautiful universe of which we are a part it is necessary to illustrate the fundamental role that mathematics plays in decoding nature s mysteries Unlike other similar textbooks some basic mathematics is integrated naturally into the text together with interpretive language and supplemented with numerous examples additional tutorials are provided on the book s companion website Astronomy The Human Quest for Understanding leads the reader down the path to our present day understanding of our Solar System stars galaxies and the beginning and evolution of our universe along with profound questions still to be answered in this ancient yet rapidly changing field ***In Quest of the Universe*** Theo Koupelis, 2010-02-02 **Continuing Kepler's Quest** National Research Council, Division on Engineering and Physical Sciences, Aeronautics and Space Engineering Board, Committee for the Assessment of the U.S. Air Force's Astrodynamics Standards, 2012-09-06 In February 2009 the commercial communications satellite Iridium 33 collided with the Russian military communications satellite Cosmos

2251 The collision which was not the first recorded between two satellites in orbit but the most recent and alarming produced thousands of pieces of debris only a small percentage of which could be tracked by sensors located around the world In early 2007 China tested a kinetic anti satellite weapon against one of its own satellites which also generated substantial amounts of space debris These collisions highlighted the importance of maintaining accurate knowledge and the associated uncertainty of the orbit of each object in space These data are needed to predict close approaches of space objects and to compute the probability of collision so that owners operators can decide whether or not to make a collision avoidance maneuver by a spacecraft with such capability The space object catalog currently contains more than 20 000 objects and when the planned space fence radar becomes operational this number is expected to exceed 100 000 A key task is to determine if objects might come closer to each other an event known as conjunction and the probability that they might collide The U S Air Force is the primary U S government organization tasked with maintaining the space object catalog and data on all space objects This is a complicated task involving collecting data from a multitude of different sensors many of which were not specifically designed to track orbiting objects and fusing the tracking data along with other data such as data from atmospheric models to provide predictions of where objects will be in the future The Committee for the Assessment of the U S Air Force s Astrodynamics Standards collected data and heard from numerous people involved in developing and maintaining the current astrodynamics standards for the Air Force Space Command AFSPC as well as representatives of the user community such as NASA and commercial satellite owners and operators Preventing collisions of space objects regardless of their ownership is in the national security interest of the United States Continuing Kepler s Quest makes recommendations to the AFSPC in order for it to create and expand research programs design and develop hardware and software as well as determine which organizations to work with to achieve its goals The Quest for Food Harald Brüssow,2007-05-11 This book explores the links between food and human cultural and physical evolution Each chapter begins by summarizing the basic knowledge in the field discusses recent research results and confirms or challenges established concepts inviting new insight and provoking new questions This book catalyzes discussion between scientists working on one side in food science and on the other side in biological and biomedical research **Quest for the Quantum Computer** Julian Brown,2001-08-14 A Science journalist reveals the existence of the world s first quantum computer created by a team of Silicon Valley researchers and able to simultaneously compute all possible solutions to a problem making it the most powerful computer in the world **In Quest of the Stars and Galaxies** Theo Koupelis,2010-01-26 In Quest of the Universe Karl F.
