

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

Culture Shock for Asians in U.S. Academia Eunkyong Lee Yook,2013-11-26 Culture Shock for Asians in U S Academia Breaking the Model Minority Myth discusses the unique cultural challenges that Asians face in U S academia The issues facing Asians in academia are worthy of our attention for two major reasons the numerical significance of Asians in U S academia and the fact that their problem has been largely eclipsed due to their visible success and status as model minority Asian immigrants are often called the model minority because of their Confucianist work ethic and emphasis on ye or social order as well as the high value placed on education Additionally Asians generally have often been stereotyped as excelling in academics However they face serious problems in adjusting to the U S academic system

These problems are due to cultural patterns and variables that are largely invisible yet nonetheless have an undeniable impact on academics. The issues that affect students ranging from kindergarten through graduate school and that also affect scholars in academic careers beyond the formative process are reviewed systematically in this book. Analysis of issues is based on intercultural communication theories and suggestions for overcoming these challenges are suggested. Becoming aware of and addressing the roadblocks for Asians is important not only for Asian students and scholars but also for educators, education administrators and institutions. Additionally, helping Asians to overcome the challenges in academia not only helps academia to become a more inclusive place where all students can learn and all scholars can work in academia successfully; it also benefits society by producing a more literate, educated and qualified workforce overall. By promoting understanding of this important topic in a systematic and theoretic fashion, valuable resources can be realized to their full potential.
