Higher Education Pathways Ashwin, Paul,Case, Jennifer M.,2018-12-14 In what ways does access to undergraduate education have a transformative impact on people and societies What conditions are required for this impact to occur What are the pathways from an undergraduate education to the public good including inclusive economic development These questions have particular resonance in the South African higher education context which is attempting to tackle the challenges of widening access and improving completion rates in in a system in which the segregations of the apartheid years are still apparent Higher education is recognised in core legislation as having a distinctive and crucial role in building post apartheid society Undergraduate education is seen as central to addressing skills shortages in South Africa It is also seen to yield significant social returns including a consistent positive impact on societal institutions and the development of a range of capabilities that have public as well as private benefits This book offers comprehensive contemporary evidence that allows for a fresh engagement with

these pressing issues □□□□□□□□ □□,□□□,2021-08-01 1 Dictation Discussion Video Watching Short Conversations Long Conversations News Reports Lectures *Turning Access into Success* Sherran Clarence,2021-03-29 Teaching is crucial for supporting students chances of success in higher education yet often makes limited use of theory to foster contextualized systemic understandings of access and success Theorized yet practical ways of empowering university educators are needed to develop their practices and turn access into success for their students This book harnesses Legitimation Code Theory LCT to inspire university educators to understand reimagine and create socially just teaching and learning practices Chapters bring this powerful theory to bear on real world examples of curriculum design inclusive practices cumulative learning assessment practices and reflection Each chapter guides the reader through these cutting edge ideas illustrates how they can make real differences in practice and sets out ways of thinking that educators integrate those ideas into practice The outcomes will help students access the powerful knowledge and ways of knowing they need for success in higher education

Re-imagining Curriculum Lynn Quinn,2019-11-15 The book argues that academics academic developers and academic leaders need to undertake curriculum work in their institutions that has the potential to disrupt common sense notions about curriculum and create spaces for engagement with scholarly concepts and theories to re imagine curricula for the changing times Now more than ever in the history of higher education curriculum practices and processes need to be shared the findings of research undertaken on curriculum need to be disseminated to inform curriculum work We hope the book will enable readers to look beyond their contextual difficulties and constraints to find spaces where they can dream and begin to implement innovative and creative solutions to what may seem like intractable challenges or difficulties **Decolonisation**

in Universities Jonathan Jansen,2019-04-01 In this collection of case studies and stories from the field South African scholars come together to trade stories on how to decolonise the university Shortly after the giant bronze statue of Cecil John Rhodes came down at the University of Cape Town student protestors called for the decolonisation of universities It was a word hardly heard in South Africa s struggle lexicon and many asked What exactly is decolonisation This edited volume brings together the best minds in curriculum theory to address this important question In the process several critical questions are raised Is decolonisation simply a slogan for addressing other pressing concerns on campuses and in society What is the colonial legacy with respect to curriculum and can it be undone How is the project of curriculum decolonisation similar to or different from the quest for postcolonial knowledge indigenous knowledge or a critical theory of knowledge What does decolonisation mean in a digital age where relationships between knowledge and power are shifting The book combines strong conceptual analyses with novel case studies of attempts to do decolonisation in settings as diverse as South Africa Uganda Tanzania and Mauritius Such a comparative perspective enables reasonable judgements to be made about the prospects for institutional take up within the curriculum of century old universities **From African Peer Review**

Mechanisms to African Queer Review Mechanisms? Nhemachena, Artwell,Warikandwa, Tapiwa Victor,2019-04-22

Tracing recent bouts of globalised Mugabephobia to Robert Mugabe's refusal to be neoimperially penetrated this book juxtaposes economic liberalisation with the mounting liberalisation of African orifices Reading land repossession and economic structural adjustment programmes together with what they call neoimperial structural adjustment of African orifices the authors argue that there has been liberalisation of African orifices in a context where Africans are ironically prevented from repossessing their material resources Juxtaposing recent bouts of Mugabephobia with discourses on homophobia the book asks why empire prefers liberalising African orifices rather than attending to African demands for restitution restoration and reparations Noting that empire opposes African sovereignty autonomy and centralisation of power while paradoxically promoting transnational corporations centralisation of power over African economies the book challenges contemporary discourses about shared sovereignty distributed governance heterarchy heteronomy and onticology Arguing that colonialists similarly denied Africans of their human essence the tome problematises queer sexualities homosexuality ecosexuality cybersexuality and humanoid robotic sexuality all of which complicate supposedly fundamental distinctions between human beings and animals and machines Provocatively questioning queer sexuality and liberalised orifices that serve to divert African attention from the more serious unfinished business of repossessing material resources the book insightfully compares Robert Gabriel Mugabe Thomas Sankara and Julius Kambarage Nyerere who emphasised the imperatives of African autonomy ownership control and sovereignty over natural resources Observing Africans interest in repossessing ownership and control over their resources the book wonders why so much queer international attention is focused on foisting queer sexuality while downplaying more burning issues of resource repossession human dignity equality and equity craved by Africans for whom life is not confined to sexuality With insights for scholars in sociology development studies law politics African studies anthropology transformation decolonisation and decoloniality the book argues that liberal democracy is a fa ade in a world that is actually ruled through criminocracy

Critical Conversations on Knowledge, Curriculum and Epistemic Justice Margaret Blackie, Kathy Lockett, 2024-12-03 This edited collection that celebrates the legacy of Suellen Shay is located in Higher Education Studies and Development in South Africa the country where she lived and worked The book has international reach as the authors engage in contemporary debates around how to think about knowledge in education development work in professional education and more recently around the call to decolonise the curriculum Contributions draw on the social realist tradition in the sociology of education to discuss how curricula are or should be structured in order to make key forms of knowledge accessible to students The collection includes theoretical debates related to the field of higher education studies as well as chapters that analyse curricula and assessment in engineering the health professions tourism and music including the impact on curricula of interdisciplinary collaboration across different types of institution and knowledge This book will be important for scholars wanting to transform how universities and colleges think about curriculum design and practice It was originally published as a special issue of Teaching

in Higher Education Afrikaans Linguistics WAM Carstens, Nerina Bosman, 2024-10-03 Offering a contemporary exploration of the multifaceted landscape of Afrikaans linguistics *Afrikaans Linguistics Contemporary Perspectives* marks a seminal contribution to the field This volume for the first time presents accessible insights into diverse linguistics subdisciplines inviting international scholars to familiarise themselves with Afrikaans language studies Throughout much of the late 19th and 20th centuries Afrikaans scholars predominantly communicated in Afrikaans resulting in a significant gap in the dissemination of knowledge about the language The chapters in this book written by prominent South Africans as well as international scholars working in the field of Afrikaans serve as a pivotal bridge by providing essential historical context while also paying attention to the development of Afrikaans linguistics during the 20th century The primary focus remains on illuminating 21st century research trajectories offering a comprehensive snapshot of contemporary scholarship in Afrikaans linguistics Leadership Strategies for Promoting Social Responsibility in Higher Education Enakshi Sengupta, Patrick Blessinger, Craig Mahoney, 2020-08-03 This book explores the theoretical underpinnings and interventions of CSR practised by universities across the globe and the role their leadership plays in promoting this It provides international examples from the US Africa Europe and Asia with implications and insights for university leadership staff and students Universities and Epistemic Justice in a Plural World Margaret Meredith, 2024-02-26 This book explains why universities and academics within them must engage with the diversity of knowledges and knowers that exist in the world Through philosophical perspectives theoretical frameworks and practical examples from around the world the book searches for opportunities for renewal and inclusion in universities It explains how higher education can better serve the purposes of social justice by re evaluating the types of knowledge it promotes Going beyond the identification and analysis of injustices in ways of knowing in academia the book offers insights and examples of practices in teaching research and work with the community which aim to move towards justice on an epistemic level It argues that inclusion in the domain of knowledge can lead to the generation of knowledges and understandings that are more robust and better equipped to address the pressing needs of the plural worlds outside the university Contributions are included from authors working in varied disciplinary and cultural contexts in universities who describe and explicate their work towards identifying epistemic injustice and finding spaces to advance knowledge justice in theory and in practice The book will be beneficial to academics and those with an interest in the role of universities in serving the public good *Universities as Living Labs for Sustainable Development* Walter Leal Filho, Amanda Lange Salvia, Rudi W. Pretorius, Luciana Londero Brandli, Evangelos Manolas, Fatima Alves, Ulisses Azeiteiro, Judy Rogers, Chris Shiel, Arminda Do Paco, 2019-04-30 This book fills an important gap in the literature and presents contributions from scientists and researchers working in the field of sustainable development who have engaged in dynamic approaches to implementing sustainability in higher education It is widely known that universities are key players in terms of the implementation and further development of sustainability with some having the potential of acting as living labs in this

rapidly growing field Yet there are virtually no publications that explore the living labs concept as it relates to sustainability and in an integrated manner The aims of this book which is an outcome of the 4th World Symposium on Sustainable Development at Universities WSSD U 2018 held in Malaysia in 2018 are as follows i to document the experiences of universities from all around the world in curriculum innovation research activities and practical projects as they relate to sustainable development at the university level ii to disseminate information ideas and experiences acquired in the execution of projects including successful initiatives and good practice iii to introduce and discuss methodological approaches and projects that seek to integrate the topic of sustainable development in the curricula of universities and iv to promote the scalability of existing and future models from universities as living labs for sustainable development The papers are innovative cross cutting and many reflect practice based experiences some of which may be replicable elsewhere Also this book prepared by the Inter University Sustainable Development Research Programme IUSDRP and the World Sustainable Development Research and Transfer Centre WSD RTC reinforces the role played by universities as living labs for sustainable development

Transforming Universities in South Africa ,2020-08-31 The idea of transformation in higher education underpins all policy documents academic literature and on going debates in South Africa Transforming Universities in South Africa Pathways to Higher Education Reform responds to the pressing need to comprehensively review the post apartheid experience and assess where South Africa s higher education stands across the continent and globally particularly within the country s efforts to overcome decades of socio economic imbalances It addresses the question of whether South Africa s transformation strategy from apartheid to democracy was simply a symbolic new flag raising and new anthem singing exercise reflecting a transition akin to those limited decolonization projects elsewhere in the world or whether something more fundamental was possible and was achieved with political and policy implications for other countries in Africa and globally This volume s ultimate purpose is to provide a basis for imagining new futures in which South Africa higher education in the context of Africa and the global world takes centre stage

The Fishy Smiths Mike Bruton,2018-09-03 The discovery of the modern day coelacanth will forever be linked with the name of JLB Smith An intense irascible eccentric man JLB as he was widely known and his long suffering wife Margaret were both remarkable South African scientists who changed the course of the biological sciences Best known for their research on the coelacanth they also contributed in many other ways to the scientific study of fishes ichthyology and related fields The first comprehensive biography about JLB and Margaret Smith Traces their formative years and serendipitous meeting leading up to the discovery of the coelacanth and the tumultuous years that followed Details their punitive work ethic eccentric and rugged lifestyle and their astonishingly productive lives A story awash with adventure travel discovery risk taking near death experiences and their extraordinary contribution to science Illustrated with black and white images of the Smiths fascinating lives as well as a 16 page colour section Mike Bruton s lively account fills a scientific and biographical niche and will become a classic of the South African

scene Sales points Important biography of a famous South African couple lively portrayal of colourful eccentric tumultuous lives with contributions from many other scientists and personalities and illustrated with black and white images throughout and a colour section

Serving Higher Purposes Ihron Rensburg, 2020-11-05 Universities of the 21st century and beyond must be about teaching learning research excellence creativity and innovation as much as they must be about enabling the destiny of students communities and nations to realize their potential UJ succeeded in her vision and responsibilities to transform the divisions prejudices and limitations that often restrain the advancement of society The story of UJ's transition to an inclusive diverse dynamic bold and purposeful institution of learning demands to be read by everyone South African African and beyond It is a story of how to be an object rather than the subject of history while dynamically shaping our shared futures laying a solid foundation for future generations to be advocates and architects for social change and cohesion It is a story of courageous and visionary leadership The book offers our nation profound lessons in leadership that should enrich all our efforts to transform institutions in a sustainable way to play a meaningful role in building ONE NATION DR WENDY LUHABE Economic Activist Social Entrepreneur First Chancellor of the University of Johannesburg

Prioritizing Sustainability Education Joan Armon, Stephen Scoffham, Chara Armon, 2019-12-05 Prioritizing Sustainability Education presents theory to practice essays and case studies by educators from six countries who elucidate dynamic approaches to sustainability education Too often students graduate with exploitative consumer driven orientations toward ecosystems and are unprepared to confront the urgent challenges presented by environmental degradation Educators are prioritizing sustainability oriented courses and programs that cultivate students knowledge skills and values and contextualize them within relational connections to local and global ecosystems Little has yet been written however about the comprehensive sustainability education that educators are currently designing and implementing often across or at the edges of disciplinary boundaries The approaches described in this book expand beyond conventional emphases on developing students attitudes knowledge and behaviors by thinking and talking about ecosystems to additionally engaging students with ecosystems in sensory affective psychological and cognitive dimensions as well as imaginative spiritual or existential dimensions that guide environmental care and regeneration This book supports educators and graduate and upper level undergraduate students in the humanities social sciences environmental studies environmental sciences and professional programs in considering how to reorient their fields toward relational sustainability perspectives and practices

Developing the Higher Education Curriculum Brent Carnell, Dilly Fung, 2017-11-13 A complementary volume to Dilly Fung's A Connected Curriculum for Higher Education 2017 this book explores research based education as applied in practice within the higher education sector A collection of 15 chapters followed by illustrative vignettes it showcases approaches to engaging students actively with research and enquiry across disciplines It begins with one institution's creative approach to research based education UCL's Connected Curriculum a conceptual framework for integrating research based education into all taught programmes of study

and branches out to show how aspects of the framework can apply to practice across a variety of institutions in a range of national settings The 15 chapters are provided by a diverse range of authors who all explore research based education in their own way Some chapters are firmly based in a subject discipline including art history biochemistry education engineering fashion and design healthcare and veterinary sciences while others reach across geopolitical regions such as Australia Canada China England Scotland and South Africa The final chapter offers 12 short vignettes of practice to highlight how engaging students with research and enquiry can enrich their learning experiences preparing them not only for more advanced academic learning but also for professional roles in complex rapidly changing social contexts *Biological*

Invasions in South Africa Brian W. van Wilgen, John Measey, David M. Richardson, John R. Wilson, Tsungai A.

Zengeya, 2020-03-10 This open access volume presents a comprehensive account of all aspects of biological invasions in South Africa where research has been conducted over more than three decades and where bold initiatives have been implemented in attempts to control invasions and to reduce their ecological economic and social effects It covers a broad range of themes including history policy development and implementation the status of invasions of animals and plants in terrestrial marine and freshwater environments the development of a robust ecological theory around biological invasions the effectiveness of management interventions and scenarios for the future The South African situation stands out because of the remarkable diversity of the country and the wide range of problems encountered in its varied ecosystems which has resulted in a disproportionate investment into both research and management The South African experience holds many lessons for other parts of the world and this book should be of immense value to researchers students managers and policy makers who deal with biological invasions and ecosystem management and conservation in most other regions **Integrating Time &**
