Mega-Events and Globalization Richard Gruneau,John Horne,2015-10-05 Since the turn of the twenty first century there has been a trend for urban mega events to be awarded to cities and nations in the East and Global South Such events have been viewed as economic stimulant as well as opportunities to promote national identity gain greater international recognition and exercise a form of soft power However there has also been on going controversy about the value impact and legacy of global mega events in these cities and nations This book provides a critical examination of the ambition for spectacle that has emerged across the East and Global South The chapters explore the theoretical and conceptual issues associated with mega events and new forms of globalization from the critical political economy of mega events in a changing world order to the contested social and economic legacies of mega events and the widespread opposition that increasingly accompanies these events The book also explores questions of urban development and governance the role of new communications technologies in global economic expansion the high security State and the growing global influence of international non governmental organizations This book offers a rich collection of original theoretical contributions and global case studies from leading international scholars from the social sciences and humanities It offers a fresh and unique interdisciplinary perspective that synthesizes cutting edge research on mega events and urban spectacles while simultaneously contributing to a broader understanding of the dynamics of global capitalism and international political power in the early twenty first century **Mechademia 9** Frenchy Lunning,2014-11-15 If the source of manga and anime is physically located in Japan the temptation for many critics and scholars is to ask what aspects of Japanese culture and history gave rise to these media This ninth volume of Mechademia an annual collection of critical work on anime and manga challenges the tendency to answer the question of origins by reductively generalizing and essentializing Japaneseness The essays brought together in Mechademia 9 lead us to understand the extent to which Japan might be seen as an idea generated by anime manga and other texts rather than the other way around What is it that manga and anime

produce that no other medium can precisely duplicate Is anime its own medium or a genre of animation or something in between And how must we adapt existing critical modes in order to read these new kinds of texts While the authors begin with similar questions about the roots of Japanese popular culture and media they invoke a wide range of theoretical work in the search for answers including feminist criticism disability studies poststructuralist textual criticism postcolonialism art history film theory phenomenology and more Richly provocative and insightful Mechademia 9 both enacts and resists the pursuit of fixed starting points inspiring further creative investigation of this global artistic phenomenon Contributors Stephen R Anderson Dale K Andrews Tohoku Gakuin U Andrew Ball s Jodie Beck Christopher Bolton Williams College Kukhee Choo Tulane U Ranya Denison U of East Anglia Lucy Fraser Fujimoto Yukari Meiji U Japan Forrest Greenwood Imamura Taihei Seth Jacobowitz Yale U Kim Joon Yang Thomas Lamarre McGill U Margherita Long U of California Riverside Matsumoto Nobuyuki Tokyo National Museum Laura Miller U of Missouri St Louis Alexandra Roedder Paul Roquet Stanford U Brian Ruh Shun ya Yoshimi U of Tokyo Alba G Torrents *Popular Science* ,2002-12 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better
