Nixon Dbq International And Domestic Challenges

SJ Ball

Nixon Dbq International And Domestic Challenges:

Cold War Patriot and Statesman Hofstra University, 1993-06-30 The only apparent consensus about the Nixon Presidency is that his accomplishments in the foreign policy area far outshadowed those in the domestic arena The advances for which he was responsible in particular the opening to China brought the most significant improvement in foreign relations among the great powers in decades The Nixon diplomacy worked while many of his domestic programs failed This was true the editors of this Hofstra sponsored volume maintain because there was more of a sense of realism and caution in his dealings with foreign governments and a willingness to compromise and accommodate their interests a tolerance he often lacked in the domestic area This volume outlines the main components of the Nixon foreign policy beginning with the significant effort to bring China into the world community The manner in which the Vietnam war was ended is examined as are the evolution of American policy in the Middle East and the efforts at detente With essays and observations from scholars and participants in the making of that policy this volume is significant reading for all students of American foreign policy and the presidency

Nixon's Business Nigel Bowles, 2005-10-04 Richard Nixon considered establishing a strong peacetime economy one of his most important political objectives not least for distinguishing himself from the cautious policies of President Dwight Eisenhower Using Richard Neustadt's analytical framework of presidential power Nigel Bowles develops five case studies around President Nixon's economic policies The thoughtful insightful analysis goes far to help us understand the sources of Richard Nixon's authority and power and his use of both For each of the issue stories as Bowles terms them he considers the president's bargaining advantages his authority constitutional and statutory popular prestige and personal qualities He then answers Neustadt's twin questions What was the president's inheritance and What was his legacy Bowles's chosen cases represent fiscal policy wage and price policy international monetary policy and domestic monetary policy Through these analyses Bowles offers new perspectives on Nixon's use of authority and power his dealings with and views of senior politicians and power brokers his ruthlessness and political ingenuity the ways his experiences as congressman senator and vice president shaped his approach to the presidency and his subordination of other objectives to his drive for re election in 1972 He concludes that Nixon used the limited authority he had under the separation of powers to the fullest degree often thereby augmenting his power in the short term but undermining it in the longer term Nixon's Business is the first book to make systematic use of Neustadt's crucial framework in understanding a specific presidency the first to analyze empirically the components of Nixon's authority and power and the first to demonstrate the implications of both for understanding the institution of the United States presidency

Witness to Power John Ehrlichman, 1982 Provides the definitive inside account of the Nixon presidency describing the events people and especially the fascinating personality of Richard Nixon and exploring the uses and abuses the fascination and toll of power

Reconciling Domestic and International Politics Shmuel Sandler, 1976

The Foreign Politics of Richard Nixon Franz Schurmann, University of California, Berkeley. Institute of

International Studies,1987 **Nixon, an Oral History of His Presidency** Gerald S. Strober,Deborah Hart Strober,1994
The book covers the entire Nixon presidency not just Watergate and Nixon s resignation It analyzes his domestic programs during his first term and partial second term and his conduct of foreign affairs including his surprising opening to the Communist Chinese a strategically brilliant diplomatic move because it reinforced China s split from Moscow It also explores his highly controversial handling of the Vietnam War he inherited from Lyndon Johnson Particularly criticized are the long drawn out secret peace negotiations that cost the United States and South Vietnam many thousands of casualties because of Nixon s determination not to be seen as losing the war an effort that subsequently failed *The Limits of Power* John Robert Greene,1992-09-22 This book argues the thesis that during the Nixon and Ford administrations America discovered the limits of its power and that both presidents had therefore to adjust to new realities in both their domestic and their international activities It was also the period when the American people first insisted on certain limits to presidential activity and even forced a powerful president from office for that reason Like the distinguished preceding volumes in this series by Charles Alexander on Eisenhower and Jim Heath on the Kennedy Johnson years John Greene s book provides a balanced historical assessment of the Nixon and Ford administrations The volume focuses on both domestic and foreign policy and presents one of the first true historical judgments about these administrations *Beyond Peace* Richard Nixon,2013-01-08 Beyond Peace is Mr Nixon s best book The New York Times Beyond Peace is a manifesto for a new America written with visionary insight and a realistic idealism by the 37th President of the United States and only completed weeks before his death In this last testament Nixon offers a new agenda for the United States and defines its role in the complex post Cold War era Nixon charts the course America should take in the future to ensure that the opportunities of this new era beyond peace are not lost America s issues he argues extend from a crisis of spirit which manifests itself in a corrosive entitlement mentality that he describes as one of the greatest threats to our fiscal health our moral fiber and our ability to renew our nation With his unrivaled experience in foreign affairs gained over many years as a statesman in the international arena he gives answers to complex foreign issues facing the United States And his intimate portraits and analyses of world leaders past and present offer us a unique bird s eye view of leadership and international politics This book challenges us to seek more than just peace it must be a mission that will unify and inspire the country built on peace but able to transcend it *Nixon Presidency* Kenneth W. Thompson,1987-06-04 This Nixon portrait provides a comprehensive view of the Nixon presidency based on extensive oral histories with some twenty two intimates of the former President Co published with the Miller Center of Public Affairs **Large-scale Foreign Policy Change** Earl C. Ravenal,1989 **What Nixon is Doing to Us** Colin Greer, Frank Riessman,1973 **Richard M. Nixon** Elizabeth Drew,2007-05-29 The complex man at the center of America s most self destructive presidency In this provocative and revelatory assessment of the only president ever forced out of office the legendary Washington journalist Elizabeth Drew explains how Richard M Nixon s troubled inner life offers the key to

understanding his presidency She shows how Nixon was surprisingly indecisive on domestic issues and often wasn't interested in them Turning to international affairs she reveals the inner workings of Nixon's complex relationship with Henry Kissinger and their mutual rivalry and distrust The Watergate scandal that ended his presidency was at once an overreach of executive power and the inevitable result of his paranoia and passion for vengeance Even Nixon's post presidential rehabilitation was motivated by a consuming desire for respectability and he succeeded through his remarkable resilience Through this book we finally understand this complicated man While giving him credit for his achievements Drew questions whether such a man beleaguered suspicious and motivated by resentment and paranoia was fit to hold America's highest office and raises large doubts that he was *Nixon on the Issues* Richard Milhous Nixon, 1968 **Averting Doomsday** Patrick J. Garrity, Erin R. Mahan, 2021-12-07 In the controversial legacy of the Nixon presidency the administration's effort to curb and control the spread of the world's weapons of mass destruction is often overlooked And yet by the time President Nixon left office under the cloud of the Watergate scandal his actions on this front had surpassed those of all his predecessors combined and laid the foundations of WMD arms control and nonproliferation policies that persist to this day In *Averting Doomsday* Patrick Garrity and Erin Mahan explore and assess Nixon's record addressing not only nuclear but also biological and chemical weapons Drawing substantially on presidential recordings and other primary sources not widely consulted the authors shed new light on milestones such as the first SALT agreement on strategic nuclear weapons and the Anti Ballistic Missile Treaty as well as the renunciation of US offensive biological weapons and a Seabed treaty The WMD control landscape had accumulated many divergent visions and interests over time technical diplomatic domestic political and utopian The Nixon administration had to adjust to and build on this eclectic foundation creating a new layer of policies to deal with WMD that substantially set the course and perhaps limited the options for future administrations in ways that are still with us Miller Center Studies on the Presidency *The Nixon Presidency* Timothy N. Thurber, 2022-03-30 The Nixon Presidency is a concise and accessible survey of domestic policy foreign affairs and politics during the thirty seventh president's time in office Richard Nixon was the most polarizing president of the twentieth century and one who continues to fascinate observers of American political life Admirers saw him as the personification of the American dream of upward mobility and their ally against threats at home and abroad Detractors considered him a deceitful sinister figure who threatened democracy was wrapped up in Watergate and perpetuated an immoral war in Vietnam As time passes new questions and insights into the Nixon era arise and various phenomena such as the expansion of the welfare state the growth of the administrative state the evolution of the Republican and Democratic Parties and the deepening polarization in politics and the broader society cast Nixon's presidency in a new light This book uses Nixon as a prism through which to view American history at home and abroad and shows how Nixon's influence remains evident half a century after he left office The text is supported by primary source documents which makes it ripe for classroom use and key for students of American

history the American presidency and the sixties *Beyond Peace* Richard M. Nixon,1994 *Beyond Peace* is a manifesto for a new America written with visionary insight and a realistic idealism by the thirty seventh president of the United States Richard Nixon offers a new agenda for the United States as it defines its role in the complex post Cold War era The collapse of communism he argues has offered the United States a unique opportunity for achieving an American renewal The ultimate test of a nation s character is not just how it responds to adversity in war but how it meets and masters the challenge of peace During the Cold War we sought a peace with justice If America is to remain a great nation we now need a mission beyond peace Nixon charts the course America should take in the future to ensure that the opportunities of this new era beyond peace are not lost With his unrivaled experience in foreign affairs he addresses the key issues facing the United States today why the United States should continue to play the leading role on the world stage and what our policies should be toward Russia Europe China Japan and the Middle East Nixon s answers are informed by a depth of knowledge gained over many years as a statesman in the international arena His intimate portraits of world leaders past and present offer us a bird s eye view of leadership and international politics Turning to America the former President perceives a crisis of spirit that extends beyond foreign affairs It manifests itself in crime in education in race relations in a selective moralism in a notion of rights without responsibility and most of all in a corrosive entitlement mentality that he describes as one of the greatest threats to our fiscal health our moral fiber and our ability to renew our nation This book challenges us to seek a goal higher than peace alone It must be a mission that will unify and inspire the country without war built on peace but able to transcend it *Beyond Peace* is Richard Nixon s tenth and possibly most provocative book **The Challenges We Face,**

Edited and Compiled from the Speeches and Papers of Richard M Nixon Richard M.
