Persson,Julian Savulescu,2025-07-16 Over the last half century moral philosophy has taken an applied turn covering practical issues in areas such as medicine business the environment and many others But it has largely failed to examine itself In this volume a range of distinguished contemporary ethicists representing many different positions examine what might be the point if any of moral philosophy Given the deep and apparently intransigent basic disagreements between philosophers is the discipline able to provide genuinely helpful advice Is there an agreed methodology for philosophical ethics Is the truth about ethics such that few people could believe it perhaps because the truth is so peculiar or act upon it because it turns out that ethics is much more demanding than most think Perhaps the only philosopher to have addressed these issues head on has

been Ingmar Persson His important arguments provide a starting point for debate and are examined and discussed by several contributors But the volume goes beyond Persson s path breaking work to clarify the nature of the challenges to philosophical ethics and the variety of responses available What Is the Point of Moral Philosophy will be of interest to scholars and students working in all areas of moral philosophy including applied ethics metaethics and normative ethics

The Metaphysics of Kindness Asher Walden,2015-03-06 Religious world views reserve a central and prominent place for human moral action yet they must also contend with the reality of human moral failings Is it possible to anchor moral knowledge and practice in the framework of a moral universe If so how do you explain why things go wrong Must the religions appeal to faith alone or can they develop a rational framework for their moral visions The Metaphysics of Kindness Comparative Studies in Religious Meta ethics explores the attempted solutions of four pivotal philosophers from

very different traditions the Neo Confucian Zhu Xi the German Idealist Arthur Schopenhauer the Mahayana Buddhist Santideva and the progenitor of the Kyoto School Nishida Kitaro Each position is investigated sympathetically and independently yet there is an underlying commonality weaving the different studies together compassion Each philosopher treats compassion not only as one virtue among others but as a kind of meta virtue the one that is in some respect the logical and or psychological basis for all the other virtues It is also a trait that is both at the heart of human nature and also somehow at the heart of nature itself
