John Casperson, 2020-04-01 Stars and galaxies atoms and molecules all created so to render a divine arena for God to love man and for man to love God Atoms and molecules of our bodies observe the same physical laws as those stars of the cosmos Yet divinity rests not with the stars but within each of us whose spirit seeks to touch them In the twenty first century it is now more appropriate to equate gender identity with a spiritual hemisphere masculine or feminine than merely biological plumbing genitalia I think too that the Golden Rule Do unto others as you would have them do unto you falls short of the mark unless the statement applies to animals and plants Misogyny the hatred of women Or more provocatively is misogyny the hatred of being attracted to women Evil resides within one s own mind and is pointed toward other people as hate envy bigotry racism etc The mind is a wonderful window for the sun to shine in but only works if the shades are open Men and women participate in the game of sex the board is the same but men bring checkers and women bring chess pieces The most marvelous sex organ isn t between the legs it s between the ears Let s be clear worship is not love Worship is idolatry love is love We seek expression sexual or otherwise without hindrance to seek and discover self our unique identity our inner yearning to reach for infinity left behind yet achingly just ahead Our souls strive for freedom and in so doing What we commonly call man the eating drinking counting man does not as we know him represent himself Him we do not respect But the soul whose organ he is would make our knees bend When it breathes through his intellect it is genius When it breathes through his will it is virtue When it flows through his affection it is love Walt Whitman Attorney General's Commission on Pornography United States. Diaspora Mae G. Henderson, 2014-05-07 The oral tradition has always played an important role in African American literature ranging from works such as Zora Neale Hurston's *Their Eyes Were Watching God* to Toni Morrison's *Beloved*. These and countless other novels affirm the power of sonance and sound in the African American literary canon. Considering the wide swath of work in this powerful lineage in addition to its shared heritage with performance, Mae G. Henderson deploys her trope of speaking in tongues to theorize the preeminence of voice and narration in black women's literary performance through her reconstruction of a fundamentally spiritual practice as a critical concept for reading black women's writing dialogically and intertextually. The first half of the book is devoted to influential works of fiction as Henderson offers a series of spirited attentive readings of works by Zora Neale Hurston, Alice Walker, Sherley Anne Williams, Toni Morrison, Gayl Jones, and Nella Larsen. The second half shifts gears to consider the world of female African American performance, most notably in the figures of Josephine Baker and the video dancer. Drawing on the trope of dancing diaspora, Henderson proposes a model of theorizing based on performing testimony and critical witnessing. Throughout the book, Henderson draws on a history of black women not only in the Pentecostal Holiness Church but also within the traditions of classical Christian African and black diasporic spirituality and performance. Ultimately, *Speaking in Tongues and Dancing Diaspora* provides a deeply felt reflection on race and gender and their effects within the discourses of speaker/listener and audience/performer. *Sydney*

Street Style Vicki Karaminas, Doctor Toni Johnson-Woods, Justine Taylor, 2015-05-01 Style is predominantly an individual matter; the way people put themselves together creates a sense of individual identity, but collectively it creates a sense of common culture in a community, a city, or a country. Geographically isolated from the fashion hubs of Paris and New York, Australia may not yet be synonymous with style. But as it moves away from the beach look that it is usually associated with and adopts haute couture, Australia is emerging as a shining star in the Southern Hemisphere. Though not the political capital of the country, Sydney is nevertheless Australia's cultural capital and the style hub and epicentre of the country's fashion evolution. *Sydney Street Style* depicts the style of this less explored fashion capital. Beautifully assembled and packed with full colour photos of the stylish and eclectic residents of Sydney, this book will be a welcome addition to the library of any fashionista or armchair traveller.
