Beachum, Festus E.

Obiakor, 2017-10 Improving Educational Outcomes of Vulnerable Children seeks to examine the plight of vulnerable students in America's educational system. Scholars and practitioners will benefit from this in-depth and unique resource for working with diverse populations of students. The term vulnerable is the current construct used to address students who are at risk of dropping out of school or of being mislabeled because of myriad social, economic, structural, educational, cultural, racial, linguistic, and societal burdens that impinge upon their learning and survival in school environments. These populations can include students in urban areas, students with special needs, and/or at-risk students who are disenfranchised, disadvantaged, and disillusioned. While the term vulnerable is used most often, authors also address students who are oppressed. In such cases, the authors explore power relations, contexts, and situations that place students in positions of powerlessness. A few of the topics discussed include students with special needs, the scholar identity of Black males, parent perspectives, teacher preparation, and using technology in the classroom. A diverse group of contributors offer their expertise in this distinctive text. Authors include scholars and practitioners from fields such as educational leadership, special education, teacher education, educational technology, and educational psychology.

Key Features: Explores the diversity of students in today's classrooms; culturally, linguistically, and racially different students; students in urban areas; students with special needs; and/or at-risk students who are disenfranchised, disadvantaged, and disillusioned. Details multiple strategies for teacher preparation and mentoring. Discusses methods for effective parent-teacher collaboration.

McCarthyism vs. Clinton Jencks Raymond Caballero, 2019-08-22 For twenty years after World War II the United States was in the grips of its second and most oppressive red scare. The hysteria was driven by conflating American Communists with the real Soviet threat. The anticommunist movement was named after Senator Joseph R. McCarthy, but its true dominant personality was FBI director J. Edgar Hoover, who promoted and implemented its repressive policies and laws. The national fear over communism generated such anxiety that Communist Party members and many left-wing Americans lost the laws' protections. Thousands lost their jobs, careers, and reputations in the hysteria, though they had committed no crime and were not disloyal to the United States. Among those individuals who experienced more of anticommunism's varied repressive measures than anyone else was Clinton Jencks. Jencks, a decorated war hero, adopted as his own the Mexican American fight for equal rights in New
