Our Sun

The sun is a star. It is the center of our solar system. It is also the biggest object in the sky. The sun is important.

The sun's heat keeps the Earth warm. If there was no sun, the Earth would freeze. Ice would cover the Earth. Plants and animals would die.

The sun also gives us light. Without the sun, it would be dark. We would not be able to see. Everything would be dark.

Plants get energy from the sun. They use light to grow. If there was no sun, plants could not grow. We would not have any food to eat.

These are the reasons we need the sun.
