Congress. House, 1880 **Rare Earth Frontiers** Julie M. Klinger, 2018-01-15 Rare Earth Frontiers is a work of human geography that serves to demystify the powerful elements that make possible the miniaturization of electronics green energy and medical technologies and essential telecommunications and defense systems Julie Michelle Klinger draws attention to the fact that the rare earths we rely on most are as common as

copper or lead and this means the implications of their extraction are global Klinger excavates the rich historical origins and ongoing ramifications of the quest to mine rare earths in ever more impossible places Klinger writes about the devastating damage to lives and the environment caused by the exploitation of rare earths She demonstrates in human terms how scarcity myths have been conscripted into diverse geopolitical campaigns that use rare earth mining as a pretext to capture spaces that have historically fallen beyond the grasp of centralized power These include legally and logistically forbidding locations in the Amazon Greenland and Afghanistan and on the Moon Drawing on ethnographic archival and interview data gathered in local languages and offering possible solutions to the problems it documents this book examines the production of the rare earth frontier as a place a concept and a zone of contestation sacrifice and transformation *Black Girls Experiencing Their Intersectional Identities in School* Crystal L. Edwards, 2019-10-17 *Black Girls Experiencing Their Intersectional Identities in School* explores the subjective experience of Black girls within the educational context Based on interviews diary entries and focus groups the author argues that as a result of their intersectional identities Black girls experience unique challenges and obstacles in the educational setting Addressing topics ranging from interpersonal relationships social media beauty sexuality hypervisibility invisibility and microaggressions this book highlights the voices and experiences of Black girls between the ages of 11 and 15 The Girls provide a narrative account of the challenges they face daily in the educational context describing in detail the factors that maintain and perpetuate volatile conditions Additionally this book explores the coping strategies that this group of Black girls developed to resist and respond to the daily obstacles Ultimately this book not only identifies the unique struggles faced by Black girls in schools as a result of their intersectional identities but most importantly this work explores pragmatic strategies that can be implemented to create safe and beneficial spaces for Black Girls The author argues that through the implementation of Black Feminist Pedagogy an Ethic of Caring and partnerships with Black Girl Empowerment organizations educational practitioners can mediate the negative experiences and create spaces for growth Materials and Processing Technologies Thanh Nam Nguyen, 2020-09-15 Selected peer reviewed papers from Conference on Mechanical Engineering and Manufacturing NCMME 2019 Selected peer reviewed papers from the National Conference on Mechanical Engineering and Manufacturing NCMME 2019 October 18 20 2019 Ho Chi Minh City Vietnam Information Technology Based Methods for Health Behaviours Stephanie Champion, Carly Moores, Rebecca Golley, 2020-03-12 Understanding and modifying health behaviors plays an important part in healthcare The need to change behaviors applies across a range of health contexts from individual interventions to the clinically delivered management of chronic diseases and rehabilitation Telehealth or virtual care technology offers many possible advantages here including cost efficiency scalability personalization and automated high volume data collection and analysis but success will depend on the effectiveness of the design implementation and deployment of IT based methods This book which forms part of the Global Telehealth series includes papers presented at

opportunistic spectrum sharing in cognitive radio networks - Mar 02 2022

mar 18 2015 this springer brief investigates spectrum sharing with limited channel feedback in various cognitive radio systems such as point to point broadcast scheduling and ad hoc networks the design aim is to optimally allocate the secondary resources to improve the throughput of secondary users while maintaining a certain quality of service for *the broadcast approach in communication networks pmc* - Feb 01 2022

jan 18 2021 other examples include opportunistic scheduling in which the transmitter adjusts encoding and transmission based on a quality of service metric that depends on the state of the channel 8 9 10 e g signal to noise ratio latency and throughput opportunistic spectrum access across time space and frequency and cognitive radio
