 Osorio,2015-08-05 Adaptation to Climate Change ASEAN and Comparative Experiences presents a dynamic and  
 comprehensive collection of works from legal scholars around the world that delves into a relatively new frontier on legal  
 aspects of climate change adaptation with focus on the ASEAN region both at the regional level as well as at the national  
 level in some ASEAN countries such as Malaysia Philippines and Thailand Other countries not within ASEAN are also  
 represented such as Bangladesh People s Republic of China Sri Lanka and the Republic of Taiwan In doing so it surveys one  
 of the most important issues confronting developing countries today and the challenges to building resilient societies It is an  
 essential source of reference for policy makers administrators the private sector officials scientists academic scholars  
 climatologists NGOs and CSOs in ASEAN and the world     Urban Geology Pradeep Bhaskarrao Jadhav,2025-09-26 This book  
 presents the result of an innovative challenge to create a systematic literature overview driven by machine generated content  
 Questions and related keywords were prepared for the machine to query discover collate and structure by Artificial  
 Intelligence AI clustering The AI based approach seemed especially suitable to provide an innovative perspective as the  
 topics are indeed both complex interdisciplinary and multidisciplinary for example climate planetary and evolution sciences  
 Springer Nature has published much on these topics in its journals over the years so the challenge was for the machine to  
 identify the most relevant content and present it in a structured way that the reader would find useful The automatically  
 generated literature summaries in this book are intended as a springboard to further discoverability They are particularly  
 useful to readers with limited time looking to learn more about the subject quickly and especially if they are new to the topics  
 Springer Nature seeks to support anyone who needs a fast and effective start in their content discovery journey from the

undergraduate student exploring interdisciplinary content to Master or PhD thesis developing research questions to the practitioner seeking support materials this book can serve as an inspiration to name a few examples It is important to us as a publisher to make the advances in technology easily accessible to our authors and find new ways of AI based author services that allow human machine interaction to generate readable usable collated research content

*Pollution Assessment for Sustainable Practices in Applied Sciences and Engineering* Abdel-Mohsen O. Mohamed, Evan K. Paleologos, Fares Howari, 2020-10-25 Pollution Assessment for Sustainable Practices in Applied Sciences and Engineering provides an integrated reference for academics and professionals working on land air and water pollution The protocols discussed and the extensive number of case studies help environmental engineers to quickly identify the correct process for projects under study The book is divided into four parts each of the first three covers a separate environment Geosphere Atmosphere and Hydrosphere The first part covers ground assessment contamination geo statistics remote sensing GIS risk assessment and management and environmental impact assessment The second part covers atmospheric assessment topics including the dynamics of contaminant transport impacts of global warming indoor and outdoor techniques and practice The third part is dedicated to the hydrosphere including both the marine and fresh water environments Finally part four examines emerging issues in pollution assessment from nanomaterials to artificial intelligence There are a wide variety of case studies in the book to help bridge the gap between concept and practice Environmental Engineers will benefit from the integrated approach to pollution assessment across multiple spheres Practicing engineers and students will also benefit from the case studies which bring the practice side by side with fundamental concepts Provides a comprehensive overview of pollution assessment Covers land underground water and air pollution Includes outdoor and indoor pollution assessment Presents case studies that help bridge the gap between concepts and practice

**Ancient Pathways, Ancestral Knowledge** Nancy J. Turner, 2014-06-01 Volume 1 The History and Practice of Indigenous Plant Knowledge Volume 2 The Place and Meaning of Plants in Indigenous Cultures and Worldviews Nancy Turner has studied Indigenous peoples knowledge of plants and environments in northwestern North America for over forty years In Ancient Pathways Ancestral Knowledge she integrates her research into a two volume ethnobotanical tour de force Drawing on information shared by Indigenous botanical experts and collaborators the ethnographic and historical record and from linguistics palaeobotany archaeology phytogeography and other fields Turner weaves together a complex understanding of the traditions of use and management of plant resources in this vast region She follows Indigenous inhabitants over time and through space showing how they actively participated in their environments managed and cultivated valued plant resources and maintained key habitats that supported their dynamic cultures for thousands of years as well as how knowledge was passed on from generation to generation and from one community to another To understand the values and perspectives that have guided Indigenous ethnobotanical knowledge and practices Turner looks beyond the details of individual plant species and their uses to determine the overall patterns and

processes of their development application and adaptation Volume 1 presents a historical overview of ethnobotanical knowledge in the region before and after European contact The ways in which Indigenous peoples used and interacted with plants for nutrition technologies and medicine are examined Drawing connections between similarities across languages Turner compares the names of over 250 plant species in more than fifty Indigenous languages and dialects to demonstrate the prominence of certain plants in various cultures and the sharing of goods and ideas between peoples She also examines the effects that introduced species and colonialism had on the region s Indigenous peoples and their ecologies Volume 2 provides a sweeping account of how Indigenous organizational systems developed to facilitate the harvesting use and cultivation of plants to establish economic connections across linguistic and cultural borders and to preserve and manage resources and habitats Turner describes the worldviews and philosophies that emerged from the interactions between peoples and plants and how these understandings are expressed through cultures stories and narratives Finally she explores the ways in which botanical and ecological knowledge can be and are being maintained as living adaptive systems that promote healthy cultures environments and indigenous plant populations Ancient Pathways Ancestral Knowledge both challenges and contributes to existing knowledge of Indigenous peoples land stewardship while preserving information that might otherwise have been lost Providing new and captivating insights into the anthropogenic systems of northwestern North America it will stand as an authoritative reference work and contribute to a fuller understanding of the interactions between cultures and ecological systems
