

REVISED DISCUSSION FOR ISSUE PAPER

Proposed Revisions to Audit Manual Chapter 6

Vehicle, Vessel and Aircraft Dealers

I. Issue

Should staff's proposed revisions to Chapter 6, *Vehicle, Vessel and Aircraft Dealers*, be incorporated into the Sales and Use Tax Department's Audit Manual?

II. Staff Recommendation

Staff recommends that the proposed revisions be incorporated into Chapter 6 of the Audit Manual, as illustrated in the attached draft (Exhibit 1).

III. Other Alternative(s) Considered

Make no changes to Chapter 6.

IV. Background

The Audit Manual (AM) is the State Board of Equalization's (Board) guide for conducting sales and use tax audits. The thirteen chapters contained within the AM incorporate procedures and techniques that have evolved over the years and have been proven to be sound and practical. Field auditors are required to carefully study these procedures and techniques in order to ensure that audits are conducted, and reports are prepared, in a clear and uniform manner consistent with approved audit policies and procedures.

Audits involving vehicles, vessels and aircraft pose unique challenges to auditors. In addition to the audit procedures described in this chapter, auditors must be familiar with an assortment of industry-specific records and the documentation required by other regulatory agencies. Chapter 6, originally titled *Motor Vehicle Dealers*, has been expanded to also include vessel and aircraft dealers, since the audit procedures and application of law to these industries are very similar to those for motor vehicle dealers. Chapter 6, last revised in October 1985, provides comprehensive information on the standard industry and regulatory records, and establishes audit procedures for examining these records.

The proposed revision to AM Chapter 6 is scheduled for consideration by the Business Taxes Committee on July 25, 2000. The chapter was revised by staff and cleared through various staff and managers who reviewed the chapter and recommended additional changes. Their suggestions and recommendations have been incorporated. On April 10, 2000, staff met with interested parties to discuss the proposed revision. As a result of this meeting, additional information was incorporated regarding consumer use tax transactions for vessels. In addition, the chapter was reorganized, grouping similar areas together to more easily locate needed information. The following discussion provides an overview of the substantive revisions proposed for the chapter.

handling contested cases available more details inside *Inland Printer, American Lithographer*, 1890 **Fundamentals of California Litigation for Paralegals** Marlene A. Maerowitz, Thomas A. Mauet, 2007-06-22 The new edition of Maerowitz and Mauet's *Fundamentals of California Litigation for Paralegals* gives students a complete explanation of California specific litigation. Clearly written with the student in mind, the text makes the material accessible while the accompanying workbook and forms put theory into practice. These features make this text an appealing choice. It offers a complete understanding of the litigation process from the time the client walks into the office through trial and post judgment including settlements and alternative forms of resolutions. A balanced approach neither oversimplifies the litigation process nor clouds the educational course with excessive information. Pedagogical aids such as bold faced terms defined in the glossary, examples, charts, and checklists, sample documents, chapter overviews, and summaries and review questions are featured throughout the text. Tailored to the California rules with each chapter referencing the specific California statute where more information can be found and California forms included throughout, it provides opportunities for the instructor to pick and choose which areas to emphasize. A workbook on CD accompanies the text and includes five case scenarios based on California law along with associated Judicial Council forms to be used as practical exercises. Instructor's Manual provides answers to the questions posed in the workbook and book as well as a test bank of questions that include true/false, short answer, and essay questions so that the instructor can choose the type of test to give. Projects for research and writing, sample forms, and suggested course outlines are also included. Changes to the Third Edition include chapters on motions and discovery tools have been broken down into separate sections so that they are both easier for the student to understand and digest and easier for the instructor to teach. Depositions, interrogatories, and document production have been included and demurrers, motions to strike, and summary judgment have been broken out into separate sections. More information is included on litigation management systems and how to use such systems to index and retrieve documents in large cases. Reflects most recent changes in the California rules. This student friendly text offers a teachable approach to the subject of California litigation. The content is neither oversimplified nor saturated with excess information which allows for a smooth introduction. *Fundamentals of California Litigation for Paralegals Third Edition* offers a complete understanding of the litigation process allowing students to walk away with a firm understanding of the complete picture. International Life Insurance David D. Whelehan, 2002 The editor has assembled a distinguished group of authorities on international life insurance to set out the key issues in this fast changing area of international planning and how to profit from the financial benefits it offers.
