

- “If men were angels, no government would be necessary. If angels were to govern men, neither external nor internal controls on government would be necessary. In framing a government which is to be administered by men over men, the great difficulty lies in this: you must first enable the government to control the governed; and in the next place, oblige it to control itself.”

-James Madison Federalist no. 51

the late 1930s a number of American women especially those allied with various peace and isolationist groups protested

against the nation's entry into World War II While their story is fairly well known Margaret Paton Walsh reveals a far less

familiar story of women who fervently felt that American intervention was absolutely necessary Paton Walsh recounts how

the United States became involved in the war but does so through the eyes of American women who faced it as a necessary

evil Covering the period between 1935 and 1941 she examines how these women functioned as political actors even though

they were excluded from positions of power through activism in women's organizations informal women's networks and even

male dominated lobbying groups In the Great Debate over whether America should enter the war some women favored aid to

the Allies not because they hoped for war but because they hoped aid would forestall more direct U S involvement but also

because they believed war was preferable to a Nazi victory Paton Walsh shows that this activism involved some of the most

prominent women of their day Elizabeth Cutter Morrow whose son in law Charles Lindbergh was an isolationist spokesman

supported the revision of the Neutrality Acts to allow the sale of arms to the Allies and expressed her support in a national radio broadcast. Soon other women joined this debate. Esther Brunauer of the AAUW, journalist Dorothy Thompson, and organizations like the League of Women Voters and National Women's Trade Union League broke from the pacifist tradition to advocate American aid for the Allied cause. Focusing on the conflict in Europe, Paton Walsh shows how these women grasped the implications of the Lend Lease program for America's entry into the war but supported it nevertheless. By late 1941 the Women's Division of the Fight for Freedom Committee had been established, no longer merely advocating aid to Britain to keep American boys out of battle; this organization supported direct American involvement in the war as a means of stopping Nazi oppression. While most historians have focused on women's pacifism, Paton Walsh connects women more directly to world events and shows how those interventionists reformulated maternalist ideas to justify and explain their beliefs. *Our War Too* is a story of American women trying to reconcile the irreconcilable to preserve both their principles and their peace. It expands our understanding of women as political actors and thinkers about foreign policy as it sheds new light on American public opinion over the build up to the war.

**Alexander of Aphrodisias, ›On the Conversion of Propositions‹** Thomas Auffret, Jonathan Barnes, Marwan Rashed, 2024-06-04 Alexander's essay on the conversion of predicative propositions contains otherwise unknown information about the early history of Aristotle's logic. The essay survives only in a mutilated Arabic translation. This volume contains a new edition of the text, a translation the first into any modern language, and a discursive commentary. It will be of interest to anyone concerned with the history of Aristotelianism or with the history of logic.

**Employment Security Review**, 1943 Manpower Review, 1943 Civil War in the Southwest Jerry D. Thompson, 2001 Written to set the record straight, these veterans' stories provide colorful accounts of the bloody battles of Valverde, Glorieta, and Peralta, as well as details of the soldier's tragic and painful retreat back to Texas in the summer of 1862.

*Rube Foster in His Time* Larry Lester, 2012-09-18 Although Andrew Rube Foster (1879-1930) stands among the best African American pitchers of the 1900s, this baseball pioneer made his name as the founder and president of the Negro National League, the first all-black league to survive a full season. In addition to founding this groundbreaking black-owned and operated business, Foster also founded and managed the Chicago American Giants, one of the most successful black baseball teams of the pre-integration era. This definitive biography combines period editorials and correspondence with insightful narrative to provide a comprehensive portrait of this innovative Hall of Famer. From the unstructured early days of black baseball when Foster gained glory as a hard-throwing pitcher through his struggles to establish the NNL and the Giants to his tragic death from complications of syphilis, this work pays overdue tribute to an authentic American baseball icon.
