Up To Me David A. S. Fraser, 2017-09-25 Here is a spellbinding autobiography by a Canadian author who has gone through a multitude of frank yet honest experiences that would qualify his lifetimes to rival at least half a cat's allotment of nine How does one experience at least six major concussions without any of them being sports related What's it like to be the only Protestant principal of a more than one room Roman Catholic school in the province for three years and loving every day of it During the times of trial in Ontario and Quebec with the terrorist bombings and kidnappings by the FLQ Front de Liberation de Quebec how did this intrepid officer in Her Majesty's Service more or less almost foil an attack upon an active military base How does one of Santa's major helpers remember all the children's names for more than ten years What's it like painting the underside of the centre span of a suspension bridge across a mile of the St Lawrence River What's it like spending a total of two and a half years time over a period of twenty years in psychiatric wards across the province and coming out better for the experience

Canadian Ford Owner & Dealer , 1922 **Journey to the Catskills** Dan Pinckney, 2018-01-09 Terrorists have developed a biological weapon that is unleashed in Mexico with the hope of it spreading to the United States The disease does as it was intended spreading flu like symptoms throughout Mexico and from there it is carried to the United States and around the world Within weeks the disease has spread across the globe and though most nations try to stop the spread the virus is already out of control in most countries In the United States the CDC has discovered a possible cure in the Catskill

Mountains of New York State but the combined efforts of the US Government are thwarted a bit when the terrorist forces taking advantage of man power shortages due to the disease manage to detonate nuclear weapons in Tel Aviv Moscow and Washington D C With the disease rampant throughout North America and as the infrastructure begins to collapse people all across North America begin to head to New York s Catskill Mountains in the hope of attaining the cure for themselves A small group of Army National Guardsmen led by Sergeant John Powers are ordered to move from their host base in central Massachusetts to the Catskills to assist the small detachment stationed there and maintain order These men begin the move and enlist the support of people from small towns in their efforts to reach the Catskills This combined unit soon arrives at the location and discovers the location of the CDC lab and together with the help of the troops already there begin to establish order and issue inoculations to the thousands of people arriving as well In the meantime convicts escaping from prisons in New York push to get the cure as well though they have different intentions Rather than help others they plan to take the cure for themselves and establish a monarchy with Larry Andrews one of their own as King of the area As the convicts approach the location they encounter the troops there and soon both sides the convicts led by Andrews and the troops now led by Powers clash in a battle that will determine the fate of those who have survived Andrews commands a hard core group of freed criminals and with the assistance of Mafia elements has created a well armed and increasingly dangerous force Powers supported by a small group of dedicated and hard working companions have created a council to govern the land by creating a republic and the discovery of a castle in the town of Liberty where they store the remnants of the CDC personnel and hope to protect the cure for anyone in need while trying to maintain order and reestablish order In the end the convicts break through the territory controlled by Powers and the republic and in an all out effort attempt to storm the castle where they have learned the cure is being stored to take it for themselves Outnumbered and outgunned Powers and the council do what they can to protect what they have built With the stage set both sides engage in an all out battle for control of the cure with both sides desperate to control the cure In the end desperate people on both sides struggle to control the cure which will decide the fate of millions around the world
