Planet Of The Apes:

Planet of the Apes Pierre Boulle, 1964 A satiric view of today's society is presented in this portrait of a planet where men and apes have exchanged roles

Planet of the Apes as American Myth Eric Greene, 1996 How do political conflicts shape popular culture This book explores that question by analyzing how the Planet of the Apes films functioned both as entertaining adventures and as apocalyptic political commentary Informative and thought provoking the book demonstrates how this enormously popular series of secular myths used images of racial and ecological crisis to respond to events like the Cold War the race riots of the 1960s the Civil Rights movement the Black Power movement and the Vietnam War The work utilizes interviews with key filmmakers and close readings of the five Apes films and two television series to trace the development of the series theme of racial conflict in the context of the shifting ideologies of race during the sixties and seventies The book also observes that today amid growing concerns over race relations the resurgent popularity of Apes and Twentieth Century Fox's upcoming film may again make Planet of the Apes a pop culture phenomenon that asks who we are and where we are going

Planet of the Apes David Hofstede, 2001 With the July 2001 release of the Planet of the Apes remake the franchise will be hotter than ever The movie will star Mark Wahlberg Tim Roth and Helena Bonham Carter Planet of the Apes enjoyed and continues to enjoy a massive fan base This volume details every POTA film every made alongside the animated series the spinoff series of the original film through to publications such as comic books and merchandise Hofstede examines all aspects of POTA interviews reviews complete cast and credit information and a bts look at what made this quirky sf film a classic

Planet of the Apes Pierre Boulle, 2011-04-13 The original novel that inspired the films First published more than fifty years ago Pierre Boulle's chilling novel launched one of the greatest science fiction sagas in motion picture history In the not too distant future three astronauts land on what appears to be a planet just like Earth with lush forests a temperate climate and breathable air But while it appears to be a paradise nothing is what it seems They soon discover the terrifying truth On this world humans are savage beasts and apes rule as their civilized masters In an ironic novel of nonstop action and breathless intrigue one man struggles to unlock the secret of a terrifying civilization all the while wondering Will he become the savior of the human race or the final witness to its damnation In a shocking climax that rivals that of the original movie Boulle delivers the answer in a masterpiece of adventure satire and suspense

Planet of the Apes Sean Egan,2021-12-01 Planet of the Apes started life in 1963 as a quirky work by Pierre Boulle the French literary novelist famous for The Bridge over the River Kwai His concept of a world where humans are ruled over by apes proceeded to become one of the biggest multi media sensations in history The 1968 Charlton Heston motion picture adaptation of Boulle s book was celebrated and successful but was just the beginning By 1973 said picture had spawned four sequels It then spun off a live action TV series which in turn spun off the animated TV show Return to the Planet of the Apes With this comic books novelizations and a tsunami of merchandising the late 60s and first half of the 70s had a distinctly simian flavor A new generation was introduced to the concept when in 2001 Tim Burton s updating of the series appeared in cinemas This itself was rebooted a decade later in the form of Rise of the Planet of the Apes and its two sequels Yet despite all the fantasy and money chasing the series has always been marked by thoughtfulness exploring serious themes alien to most franchises Planet of the Apes The Complete History explores every aspect of this phenomenon from books to films comic books to television shows and video games to merchandise providing an overview that is truly definitive With the help of new and exclusive interviews with Planet of the Apes producers directors writers actors and makeup artists Sean Egan attempts to gain an understanding of how a media property changed the world **Planet of the Apes** Daryl Gregory,2013-02-05 Ten years after the assassination of the Lawgiver rumbles of revolution gather below the surface of the
