

The illustration depicts two European Waxwings (Mniotilta varia) perched on a gnarled, light-brown branch. The bird in the upper left is shown in profile, facing left, with its head slightly turned. It has a reddish-brown crest, a black throat and face, and a body with warm brown and tan tones. Its wings show a mix of grey, black, and white feathers, with a prominent yellow patch on the underside of the tail. The bird in the lower right is also in profile, facing right, with a similar color palette but a more pronounced yellow patch on its tail. Both birds are surrounded by clusters of small, bright red berries on thin, leafless branches. The background is a plain, light cream color.
