November 27, 2015

To Whom It May Concern,

It is with great pleasure that I write this letter of recommendation for Pat Puccini. Pat volunteered in my Special Education Class from December 2014 to June 2015. He immediately stood out as a future educator with many strengths and skill sets to share. He developed a positive rapport with my students, a class of mostly junior boys with varying exceptionalities and needs. When he wasn't in, the students were always asking for him. He was confident to work with the students in small group and 1:1. Pat also developed relationships with the other teachers on staff. He displayed dedication, and passion in regards to what was best for the students, and this became more apparent as he got to know the students and their individual needs. His caring nature was evident in the way he addressed all students in the classroom, in the halls or on the playground. Pat is a true role model.

Pat is hardworking, conscientious and very mindful of student needs. He did not hesitate to ask for advice or help. Pat was very interested in learning about Special Education in the classroom to further his own learning and knowledge.

It was a pleasure having Pat Puccini in my class and his attitude, dedication and passion will make him a very valuable asset to any school community.

Sincerely,

Tanya Armstrong
Teacher

Blessed Teresa of Calcutta School

[automatic street light control using ldr microcontroller project report](#) - Jul 04 2023

web oct 20 2012 introduction to automatic street light control using ldr microcontroller project the main objective of this paper is to provide a better solution to minimize the electrical wastage in operating street lights in this electronic era human became restless and he is not in a position to regulate the manual operations in any field a rapid

automatic control of street light using ldr ppt slideshare - Apr 01 2023

web jan 4 2015 it will automatically turn on street light in the way of leds or bulb coupled with relay working this circuit is very much easy and also the power consumed by the circuit is very low because of the very few components used in the circuit devang loharikar ldr is a device whose sensitivity depends upon the intensity of light falling on it

doc report on automatic street light control system with ldr - Sep 06 2023

web 21 automatic switching of street lights by using ldr and relay we decided to use an light dependent resistor here in this circuit ldr has low resistance in brightness only few ohms and very high resistance in complete darkness nearly 1m ohm so the transistor q1 becomes on in day times and q2 becomes off and hence the relay remains in nc

[automatic street light controller system using ldr](#) - Feb 16 2022

web automatic street light using passive infra red pir motion sensor and light dependent resistor ldr sensor where the street lights will automatically turn on and off by detecting the presence of human and amount of luminous energy in the environment at

[automatic street lighting system using ldr ijariit](#) - Mar 20 2022

web automatic street lighting system is a simple yet powerful concept which uses ldr sensor as a switch by using this system we can eradicate manual work at 100 it automatically switches the lights on when the sunlight goes below the

[pdf automatic street light researchgate](#) - Oct 27 2022

web aug 5 2020 pdf street light using a system that involves ultrasonic sensor and ldr to determine the state of the street light on or off depend on the presence find read and cite all the research

automation in street lights using ir sensors and ldr - May 02 2023

web jan 6 2022 this paper presents a street light control system which combines various technologies ldr light dependent resistor is an electronic component whose resistance decreases with increase in

automatic street light project report pdf document - Oct 07 2023

web jun 2 2018 8 10 2019 automatic street light project report 1 34 1 a project report on automatic street controller with visitor counter in the partial fulfilment of the requirement for the degree of bachelor of technology in electrical and electronics engineering by under the

automatic street lights control using ldr and arduino - Sep 25 2022

web automatic street lights control using ldr and arduino automatic street light control is used to control the street lights turn on and off based on the light here we make use of ldr light dependent resistor and led light emitting diode and arduino

automatic street light control system using ldr and ic555 timer - Aug 25 2022

web abstract this project automatic street light control system aims at designing and executing the advanced development in embedded systems for energy saving of street lights by using light dependent resistor ldr nowadays human has become too busy and he is unable to find time even to switch the lights on or off

smart street light project using arduino ldr and ir sensors - Jul 24 2022

web dec 8 2021 smart street light project using arduino ldr and ir sensors ldr light dependent resistor and ir infrared sensor are among the most widely used electronics components in this article we are going to use these sensors with the arduino to build an amazing smart street light project

a project based lab report on street light using ldr a mini project - Nov 27 2022

web a project based lab report on street light using ldr a mini project work on analog electric circuit design b neelima chowdary automatic street light control system is a simple yet powerful concept which uses transistor as a switch by using this system manual works are 100 removed it automatically switches on lights when the

automatic street light project using ldr and op amp ic - May 22 2022

web nov 26 2020 welcome back to electroduino this blog is based on the automatic street light project using ldr and lm358 op amp ic here we will discuss introduction to automatic street light project project concept block diagram components required circuit diagram working principle

automatic street light control circuit using ldr transistor - Feb 28 2023

web the automatic operation of street light controlling systems help to reduce the energy consumption as compared to the manually operated street light controlling operations this is because there is a delay in the earlier switching operations both in morning during sunrise and evening during sunset

smart street light project using arduino ldr and ir sensors - Jun 22 2022

web jan 12 2022 what sensors do smart street lights use the sensors used in a street light project using arduino are ir sensors or ultrasonic sensors other components are arduino uno two ir sensors light depending resistor ldr two 220 Ω resistors one 1 k Ω resistor two leds what are the advantages of smart street lights the smart street
