New York Court of Appeals. Records and Briefs. New York (State)., **New York Cruciform Lectionary** Jeffrey C. Anderson, 2010-11-01 For elegance and beauty the Constantinopolitan scribes set standards rarely surpassed The Gospel lectionary was among the books that attracted the most enthusiastic attention of scribes illuminators and their patrons As an important liturgical item the lectionary was often exquisitely decorated The subject of this study the lectionary in the Pierpont Morgan Library is unusual even among such luxury manuscripts because its scribe laboriously copied every page of text in the shape of a cross It is one of just three such manuscripts made in Constantinople around the middle of twelfth century and it is the only one that contains narrative illustration Jeffrey Anderson provides a full description of the manuscript and he has translated and indexed its calendar of saints Each of the miniatures is reproduced described and discussed and Anderson relates some scenes to versions found in other Byzantine lectionaries and Gospels The illustrations are attributed to two illuminators and in a separate chapter Anderson situates their contributions with regard to the ruling writing and illumination of the pages He also relates through style the cruciform lectionaries to dated twelfth century monuments to establish their place in the history of Byzantine art

The Perfect Norm Sandra Vavra, Sharon L.

Spencer,2009-02-01 Our goal in writing this book was to validate teachers for strong efforts in their life s work We often observe teachers frustrations with what they perceive to be a multitude of different hot topics in education that they must attend to now but which they expect to come and go like the last hot topics So we wanted to help readers see similarities between many of these hot topics differentiation multiple intelligences culturally responsive teaching brain friendly strategies authentic assessment and ethical classroom management which we feel are not flashes in the pan And we trust that serious practitioners will not oversimplify the findings of neuroscientists and their application to education Reading studies and books by scientists a number of which are user friendly can help ensure that teachers separate the hype from credible information We have seen this professionally judicious approach in the work of graduate students Kolinski 2007 in adopting brain friendly strategies We have intentionally packed both theoretical research based and practical information in this book because professional educators want to know why they should use certain approaches models and strategies In turn as professionals we should be able to explain why we teach the way we do not to justify but to educate others about our knowledge based reflective decision making processes and the impact on student learning Thus it is important to read Chapter 1 because it lays a foundation Each succeeding chapter 2 6 has unique and compelling twists and turns chock full of ideas to use or to adapt It is possible to gain lots of ideas processes and strategies from reading and implementing or adapting even one of the unit chapters or a part of it While some of the units are explicitly about literacy others focus on content using reading writing speaking and listening as critical in the learning process Thus literacy skills are reinforced and strengthened Additionally some of our colleagues and public school partners have given us feedback that they wanted to implement some of the units and activities themselves So feel free to use this book for self exploration and professional development

We Can't Go Home Again Clarence E. Walker, 2001-06-14

Afrocentrism has been a controversial but popular movement in schools and universities across America as well as in black communities But in *We Can't Go Home Again* historian Clarence E Walker puts Afrocentrism to the acid test in a thoughtful passionate and often blisteringly funny analysis that melts away the pretensions of this therapeutic mythology As expounded by Molefi Kete Asante Yosef Ben Jochannan and others Afrocentrism encourages black Americans to discard their recent history with its inescapable white presence and to embrace instead an empowering vision of their African specifically Egyptian ancestors as the source of western civilization Walker marshals a phalanx of serious scholarship to rout these ideas He shows for instance that ancient Egyptian society was not black but a melange of ethnic groups and questions whether in any case the pharaonic regime offers a model for blacks today asking if everybody was a King who built the pyramids But for Walker Afrocentrism is more than simply bad history it substitutes a feel good myth of the past for an attempt to grapple with the problems that still confront blacks in a racist society The modern American black identity is the product of centuries of real history as Africans and their descendants created new hybrid cultures mixing many African ethnic influences with native and European elements Afrocentrism replaces this complex history with a dubious claim to distant glory Afrocentrism offers not an empowering understanding of black Americans past Walker concludes but a pastiche of alien traditions held together by simplistic fantasies More to the point this specious history denies to black Americans the dignity and power that springs from an honest understanding of their real history
