Representing Autism Stuart Fletcher Murray,2008-06-01 From concerns of an autism epidemic to the MMR vaccine crisis autism is a source of peculiar fascination in the contemporary media Discussion of the condition has been largely framed within medicine psychiatry and education but there has been no exploration of its power within representative narrative forms Representing Autism is the first book to tackle this approach using contemporary fiction and memoir writing film photography drama and documentary together with older texts to set the contemporary fascination with autism in context Representing Autism analyses and evaluates the place of autism within contemporary culture and at the same time examines the ideas of individual and community produced by people with autism themselves to establish the ideas of autistic presence that emerge from within a space of cognitive exceptionality Central to the book is a sense of the legitimacy of autistic presence as a way by which we might more fully articulate what it means to be human Bernard Bolzano Paul Rusnock,Jan Sebestik,2019-04-25 Bernard Bolzano 1781 1850 is increasingly recognized as one of the greatest nineteenth century philosophers A philosopher and mathematician of rare talent he made ground breaking contributions to logic the foundations and philosophy of mathematics metaphysics and the philosophy of religion Many of the larger features of later analytic philosophy but also many of the details first appear in his work for example the separation of logic from psychology his sophisticated understanding of mathematical proof his definition of logical consequence his work on the semantics of natural kind terms or his anticipations of Cantor s set theory to name but a few To his contemporaries however he was best known as an intelligent and determined advocate for reform of Church and State Based in large part on a carefully argued utilitarian practical philosophy he developed a program for the non violent reform of the authoritarian institutions of the Hapsburg Empire a program which he himself helped to set in motion through his teaching and other activities Rarely has a philosopher had such a great impact on the political culture of his homeland Persecuted in his lifetime by secular and ecclesiastical authorities long ignored or misunderstood by philosophers Bolzano s reputation has nevertheless steadily increased over the past century and a half Much discussed and respected in Central Europe for over a century he is finally beginning to receive the recognition he deserves in the English speaking world This book provides a comprehensive and

detailed critical introduction to Bolzano covering both his life and works *Little Buddhas* Vanessa R. Sasson,2013 Consideration of children in the academic field of Religious Studies is taking root but Buddhist Studies has yet to take notice *Little Buddhas* brings together a wide range of scholarship and expertise to address the question of what role children have played in Buddhist literature in particular historical contexts and what role they continue to play in specific Buddhist contexts today The volume is divided into two parts one addressing the representation of children in Buddhist texts the other children and childhoods in Buddhist cultures around the world The ground breaking contributions in this volume challenge the perception of irreconcilable differences between Buddhist idealism and family ties *Little Buddhas* will be an indispensable resource for students and scholars of Buddhism and Childhood Studies and a catalyst for further research on the topic

Realism Reconsidered Michael Williams,2007-11-15 Realism remains the most important and controversial vision of international politics But what does it mean to be a realist This collection addresses this key question by returning to the thinking of perhaps the most influential realist of modern times Hans J Morgenthau In analyses of issues ranging from political philosophy to international law to the impact of nuclear weapons and the challenges of American foreign policy the authors demonstrate that Morgenthau's thinking exemplifies a rich realist tradition that is often lacking in contemporary analyses of international relations and foreign policy At a time when realism is once again at the centre of both scholarly and political debates this book shows that the legacy of classical realism can enrich our understanding of world politics and contribute to its future direction

[Theories of Consciousness](#) William Seager, 2002-01-31 The most remarkable fact about the universe is that certain parts of it are conscious. Somehow nature has managed to pull the rabbit of experience out of a hat made of mere matter. Making its own contribution to the current lively debate about the nature of consciousness, *Theories of Consciousness* introduces a variety of approaches to consciousness and explores to what extent scientific understanding of consciousness is possible. Including discussion of key figures such as Descartes, Fodor, Dennett, and Chalmers, the book covers identity theories, representational theories, intentionality, externalism, and the new information-based theories.

Don't Talk About Politics Sarah Stein Lubrano, 2025-05-15 Democracy is dying because we are clinging to a dangerous and outdated myth: talking about politics can change people's minds. It doesn't. This provocative debut from a bold new voice combines a fascinating range of research to show us the psychological and sociological factors that really shape our politics. Drawing from ancient philosophy to modern neuroscience and social science, Dr. Sarah Stein Lubrano reveals the surprising truth about how people think and behave politically. From friendship to community organizing and social infrastructure, she explores the actions that actually do change minds. In a world where politics keeps getting more irrational, dishonest, violent, and chaotic, it's getting much harder to reach people with words alone. So people who really care about democracy must ask: how can we stop arguing and do the deep work to build stronger foundations for political life and a better world for us all?

The B-List: 2007 Steve Buffum, 2008 All over the world, the statues of Mary are miraculously crying. In the meantime, a journalist in Washington, D.C. is diverted away from her own personal demons when she takes it upon herself to question why the Vatican is not declaring these occurrences as miracles after witnessing the unexplainable phenomena herself. The journalist suspects her nightly barrage of haunting nightmares about the violent murders of countless women—from five thousand-year-old priestesses to women accused of being witches in the seventeenth century—may have something to do with the answer as she investigates the biggest story of her life. Women all over the world in the 21st century are feeling the awakening as the discovery of ancient artifacts disproves the beliefs set forth by patriarchal religions for thousands of years. When the journalist receives a visitation from a beautiful Goddess who at first appears to be the Virgin

Mary she suddenly realizes that an ancient religious and political cover up has grossly distorted some very important historical truths As the journalist investigates and begins to publicly write about what she has uncovered death threats and terror follow next as powerful members of the world s patriarchal religions and the age old male run organizations that support them fight viciously to keep one of the world s oldest and most deceptive societal form of control against women hidden from the world But as intimidation and threats increase so too do the miracles and visitations from the real Sleeping Goddess as she awakens once again to bless and protect the world while igniting the hearts and souls of oppressed women everywhere
