Thomas, 2014-12-18 For almost a half a century scholars and practitioners have debated what the connections should be between public administration and the public Does the public serve principally as citizen owners those to whom administrators are responsible Are members of the public more appropriately viewed as the customers of government Or in an increasingly networked world do they serve more as the partners of public administrators in the production of public services This book starts from the premise that the public comes to government not principally in one role but in all three roles as citizens and customers and partners The purpose of the book is to address the dual challenge that reality implies 1 to help public administrators and other public officials to understand the complex nature of the public they face and 2 to provide recommendations for how public administrators can most effectively interact with the public in the different roles Using this comprehensive perspective Citizen Customer Partner helps students practitioners and scholars understand when and how the public should be integrated into the practice of public administration Most chapters in Citizen Customer Partner include multiple boxed cases that illustrate the chapter's content with real world examples The book concludes with an extremely useful Appendix that collects and summarizes the 40 Design Principles specific advice for public organizations on working with the public as customers partners and citizens *Diffusion and Adoption of Information Technology* Karlheinz Kautz, Jan Pries-Heje, 1996-04-30 It is well known that the introduction of a new technology in one organization not always produces the intended benefits Levine 1994 In many cases either the receivers do not reach the intended level of use or

simply the technology is rejected because it does not match with the expectations true or false and the accepted psychological effort to use it The case of formal methods is a paradigmatic example of continual failures The published cases with problems or failures only constitute the visible part of a large iceberg of adoption cases It is difficult to get companies to openly express the problems they had however from the experience of the author failure cases are very common and they include any type of company Many reasons to explain the failures and in some cases the successes could be postulated however the experiences are not structured enough and it is difficult to extract from them useful guidelines for avoiding future problems Generally speaking there is a trend to find the root of the problems in the technology itself and in its adequacy with the preexistent technological context Technocratic technology transfer models describe the problems in terms of these aspects Although it is true that those factors limit the probability of success there is another source of explanations linked to the individuals and working teams and how they perceive the technology

Leadership in Public and Nonprofit Organizations Montgomery Van Wart, Paul Suino, Pamela S. Medina, 2023-04-14 Leadership in Public and Nonprofit Organizations Fourth Edition provides a compact but complete analysis of leadership for students and practitioners who work in public and nonprofit organizations Offering a comprehensive review of leadership theories in the field from the classic to the cutting edge and how they relate specifically to the public sector and nonprofit contexts this textbook covers the major competency clusters in detail supported by research findings as well as practical guidelines for improvement These competencies are portrayed in a leadership action cycle that aids readers in visually connecting theory and practice This thoroughly revised new edition also offers Questions for discussion and analysis hypothetical scenarios for each chapter as well as an easily reproducible leadership assessment instrument students may use to apply the theories they've learned Expanded coverage of nonprofit leadership integrated throughout the chapters including in depth discussions about managing volunteers fundraising ethics the nonprofit board advocacy diversity and philanthropy emotional labor and mission based leadership An all new chapter section on virtual leadership approaches designed to help current and future managers cope with the unique opportunities and challenges presented by remote work Leadership in Public and Nonprofit Organizations is an essential core text designed specifically with upper level and graduate public administration and nonprofit management courses on leadership in mind but it has also proven an indispensable guidebook for professionals seeking insight into the role of successful leadership behavior in the public and nonprofit sectors It can further be used as supplementary reading in introductory courses examining management competencies in leadership classes to provide practical self help and improvement models and in organizational theory classes that wish to balance organizational perspectives with individual development
