Directions: There is an element on the periodic table that does not want to be located. Actually, this element is "hiding out." In an effort to elude you, the element has provided many false identities and it is your job to follow-up on all of these to locate it. However, the element is not as smart as it thinks; we know that all of these false identities are connected to each other. Therefore, providing the correct identity for each clue below will ultimately help you find the element (this means you should use each answer as a reference to get the next one). So, if you make just one mistake it will affect all clues and identities that follow; thus allowing this perpetrator to get away.

What Price Utopia? Daphne Patai, 2008-05-20 This volume brings together for the first time more than two dozen of Daphne Patai's incisive and at times satirical essays dealing with the academic and intellectual orthodoxies of our time. Patai draws on her years of experience in an increasingly bizarre academic world where a stifling politicization threatens genuine teaching and learning. Addressing the rise of feminist dogma, the domination of politics over knowledge, the shoddy thinking and moralizing that hide behind identity politics and the degradation of scholarship, her essays offer a resounding defense of liberal values. Patai takes aim at the unctuous and also dangerous posturing that has brought us restrictive speech codes, harassment policies and a vigilante atmosphere while suppressing plain speaking about crucial issues. But these trenchant essays are not limited to academic life; for the ideas and practices popularized there have spread far beyond campus borders. Included are two new pieces written especially for this volume: one on the bullying tactics of a famous feminist and the other on Islamic fundamentalism.

Handbook of Feminist Research Sharlene Nagy Hesse-Biber, 2011-10-30 This Handbook presents both a theoretical and practical approach to conducting social science research on and about women. It develops an understanding of feminist research by introducing a range of feminist epistemologies, methodologies and emergent methods that have had a significant impact on feminist research practice and women's studies scholarship. Contributors to the Second Edition continue to highlight the close link between feminist research and social change and transformation. The new edition expands the base of scholarship into new areas with 12 entirely new chapters on topics such as the natural sciences, social work, the health sciences and environmental studies. It extends discussion of the intersections of race, class, gender and globalization as well as transgender, transsexualism and the queering of gender identities. All 22 chapters retained from the first edition are updated with the most current scholarship, including a focus on the role that new technologies play in the feminist research process.

Ken Jennings's Trivia Almanac Ken Jennings, 2008-01-15 The all-time champion and host of Jeopardy! gives you the chance to test your trivia mettle in this ingeniously organized book of 8,888 questions. For example: February 21. In 1912, on this day, Teddy Roosevelt coined the political phrase "he who dines in the ring." So Ken Jennings fires off a series of ring questions. In 1979, who became the first NFL quarterback with four Super Bowl rings? What rings are divided by the Cassini Division? Also on this date in 1981, the goth music scene was born in London, so here's a quiz on black-clad icons like Darth Vader, Johnny Cash and Zorro. Do you know the secret identities of Ivanhoe's Black Knight or Men in Black's Agent M? In this ultimate book for trivia buffs and other assorted know-it-alls, the 365 entries feature "This Day in History" factoids, trivia quizzes and questions categorized by Jennings as Easy, Hard and Yeah Good Luck. Topics cover every subject under the sun, from paleontology to mixology, sports feats to Bach suites, medieval popes to daytime soaps. This addictive gathering of facts, oddities, devilishly clever quizzes and other flights of fancy will make each day a fun and intriguing new challenge.
