**Abstract:** Can a materialist look for the resurrection of the dead and the life of the world to come? Dean Zimmerman's Falling Elevator Model is a speculative account of how persons, understood as material beings, might survive in a post-mortem resurrected state—a just-so story. It assumes endurantism, the doctrine that persons and other ordinary objects are three-dimensional beings which are wholly present at every time they exist. I argue that neither endurantism, nor perdurantism, according to which persons are four-dimensional 'worms' who have proper temporal parts at every time that they exist, provides a plausible account of personal survival. If you want to be a Christian materialist you should embrace exdurantism, the 'stage theory', according which persons are instantaneous stages and are not identical to their temporal successors either in this world or in any world to come. Exdurantism provides a plausible account of survival in ordinary cases and extraordinary cases of this-worldly fission, and of post-mortem survival.

**Keywords:** Personal identity, Fission, Stage theory, Afterlife, Zimmerman

Mind-body materialism is the doctrine persons are material beings, composed entirely of stuff that can be found in lifeless, unconscious forms. Can a materialist affirm the Christian doctrine of the resurrection of the dead and the life of the world to come? Zimmerman's Falling Elevator Model is a speculative account of how those material beings who are persons might survive in a post-mortem resurrected state — a just-so story that purports to show their resurrection possible.

The Falling Elevator Model assumes endurantism, the doctrine that persons and other ordinary objects are three-dimensional beings which are wholly present at every time that they exist. I argue that neither endurantism, nor perdurantism, according to which persons are four-dimensional "worms" who have proper temporal parts at every time that they exist, provides a plausible account of personal survival in the next world — or in this one.

I suggest that if you want to be a Christian materialist or, like Zimmerman, an emergent dualist, you should embrace exdurantism, the "stage theory". Persons,

Hume on the Self and Personal Identity Dan O'Brien, 2022-08-30 This book brings together a team of international scholars to attempt to understand David Hume's conception of the self. The standard interpretation is that he holds a no self view: we are just bundles of conscious experiences, thoughts, and emotions. There is nothing deeper to us: no core, no essence, no soul. In the Appendix to *A Treatise of Human Nature*, though Hume admits to being dissatisfied with such an account. Part One of this book explores why this might be so. Part Two turns to Books 2 and 3 of the *Treatise* where Hume moves away from the fiction of a simple self to the complex idea we have of our flesh and blood selves: those with emotional lives, practical goals, and social relations with others. In Part Three, connections are traced between Hume and Madhyamaka Buddhism, Husserl, and the phenomenological tradition, and contemporary cognitive science. Prust,2021-10-25 The notion of a person is in deep philosophical trouble And this has posed a deepening crisis for believers Christian beliefs are after all irreducibly about persons In response to this situation Prust proposes a new way to reason about persons one based on identifying persons as characters of action Employing a phenomenology of action he calls character logic he develops a powerful new tool for thinking through some of the intractable dilemmas that have long befuddled belief Can we avoid being arbitrary and parochial in claiming that God is the only source of moral value Can we reconcile natural evil in the world with God s absolute power Can we continue to honor the historicity of faith based claims in the face of critical history Can our personal life be eternal when neither timeless nor everlasting life is conceivable Can we accept our personal mortality and still affirm our destiny as eternal Wholeness The Character Logic of Christian Belief argues that character logic shows us a reasonable way to think about persons one that puts theology on a new footing and gives affirmative answers to all these questions Personal Narratives, Peripheral Theatres: Essays on the Great War (1914-18) Anthony Barker,Maria Eugénia Pereira,Maria Teresa Cortez,Paulo Alexandre Pereira,Otília Martins,2017-12-14 This book is a collection of essays on neglected aspects of the Great War It begins by asking what exactly was so Great about it before turning to individual studies of various aspects of the war These fall broadly into two categories Firstly personal micro narratives that deal directly with the experience of war often derived from contemporary interest in diaries and oral histories Presenting both a close up view of the viscosity and the tedium and powerlessness of personal situations these same narratives also address the effects of the war on hitherto under regarded groups such as children and animals Secondly the authors look at the impact of the course of the war on theatres often left out in reflections on the main European combatants and therefore not part of the regular iconography of the trenches in places such as Denmark Canada India the Levant Greece and East Africa **Writing Qualitative Inquiry** H.L. Cataloging Policy and Support Office, 2009 Conflict Narratives in Middle Childhood Marsha D. Walton, Alice J. Davidson, 2017-03-27 *Conflict Narratives in Middle Childhood* presents evidence from twenty years of research examining nearly 3 000 narratives from 1 600 children in eight settings in two countries about their own experiences with interpersonal conflict Close readings combined with systematic analysis of dozens of features of the stories reveal that when children are invited to write or talk about their own conflicts they produce accounts that are often charming and sometimes heartbreaking and that always bring to light their social emotional and moral development Children's personal stories about conflict reveal how they create and maintain friendships how they understand and react to the social aggression that threatens those friendships and how they understand and cope with physical aggression ranging from the pushing and poking of peers to criminal violence in their neighborhoods or families Sometimes children describe the efforts of adults to influence their conflicts efforts they sometimes welcome and sometimes resist Their stories show them taking on gender and other cultural commitments We are not just watching children become more and more like us as they move through the elementary school years we are watching them become the architects of a future we will only see to the extent that we understand their way of making sense *Menkiti's Moral Man* Oritsegbubemi Anthony Oyowe, 2022-03-14 In *Menkiti's Moral Man* Oritsegbubemi Anthony Oyowe offers an original interpretation of Ifeanyi Menkiti's conception of person one that has significant implications for his metaphysics and moral philosophy Menkiti holds that one is not born a person but becomes a person in a linguistic and cultural community denies that the mere possession of intrinsic properties makes one a person and maintains that personhood is defined by the community This last process consists in the community socially recognizing as person one who has been incorporated into society and has successfully carried out a range of obligations linked to social roles and positions On the one hand Oyowe clarifies the role of intrinsic properties in Menkiti's account by arguing that for Menkiti moral agency and personhood do not coincide One is a moral agent but not a person in virtue of being rational free and

endowed with a moral personality On the other hand he clarifies the sense in which the community makes one a person by drawing on principles of social ontology to explain how by adopting certain attitudes and practices a community constitutes its members as persons This interpretation has the potential to illuminate a range of problems raised in response to Menkiti's conception of person     Resources in Education ,1998     **Borderland** Chrisanthi Giotis,2022 Every two seconds a person is displaced caught in one of the more than 40 active conflicts around the world that show no sign of ending Since 1994 there has been ongoing war in the Democratic Republic of Congo which has uprooted millions of people and resulted in the deaths of millions more In the West we have entered a political era where our border policies are underpinned by unending wars At this critical juncture how can journalists especially those engaged in foreign correspondence tell these stories How can they make connections across time and space and across politics economics environments and crucially people Given its colonial history are these connections possible for the profession of foreign correspondence In *Borderland* Chrisanthi Giotis argues that decolonization is possible and necessary for the development of a truly global public sphere New global narratives need to meaningfully include the voices and knowledge of those with the least power who are caught in resource fuelled wars Drawing on insights from postcolonial studies international relations development studies and philosophy which are brought to life through auto ethnographic descriptions and analysis of behind the scenes events Giotis introduces new reporting techniques for foreign correspondents *Borderland* argues that decolonized reporting techniques will help journalists and their audiences move beyond the sociohistorical and political myopia that prevents us from communicating and understanding the reality of a complex world     **Go Be a Writer!** Candace R. Kuby,Tara Gutshall Rucker,2016-04-15 This book provides an introduction to poststructural and posthumanist theories in order to imagine new possibilities for expanding literacy education The authors put to work these theories in the context of an elementary school classroom examining literacy based activities that occur as students participate with materials in a multimedia writers studio Focusing on literacy processes the book emphasizes the fluid and sometimes unintentional ways multimodal artifacts come into being through intra actions with human and nonhuman materials Because these theories emphasize the unplanned nonlinear aspects of literacy the authors demonstrate an approach to literacy that works against the grain of standardization and rigid curricular models *Go Be a Writer* reveals that when educators appreciate the value of unscripted intra actions they allow for more authentic learning     **Developmental Psychopathology, Theory and Method** Dante Cicchetti,2016-02-29 The seminal reference for the latest research in developmental psychopathology *Developmental Psychopathology* is a four volume compendium of the most complete and current research on every aspect of the field Volume One *Theory and Method* focuses on the theoretical and empirical work that has contributed to dramatic advancements in understanding of child and adult development including findings in the areas of genetics and neurobiology as well as social and contextual factors Now in its third edition this comprehensive reference has been fully updated to reflect the current state of the field and its increasingly

multilevel and interdisciplinary nature and the increasing importance of translational research Contributions from expert researchers and clinicians provide insight into how multiple levels of analysis may influence individual differences the continuity or discontinuity of patterns and the pathways by which the same developmental outcomes may be achieved Advances in developmental psychopathology have burgeoned since the 2006 publication of the second edition ten years ago and keeping up on the latest findings in multiple avenues of investigation can be burdensome to the busy professional and researcher from psychology and related fields This reference solves the problem by collecting the best of the best as edited by Dante Cicchetti a recognized leader in the field into one place with a logical organization designed for easy reference Get up to date on the latest research from the field Explore new models emerging theory and innovative approaches Learn new technical analysis and research design methods Understand the impact of life stage on mental health The complexity of a field as diverse as developmental psychopathology deepens with each emerging theory and new area of study as made obvious by the exciting findings coming out of institutions and clinics around the world Developmental Psychopathology Volume One Theory and Method brings these findings together into a cohesive broad reaching reference Library of Congress Subject Headings Library of Congress,Library of Congress.
