Rolls-Royce Silver Cloud - The Complete Story James Taylor,2021-11-22 The Rolls Royce company acquired Bentley Motors in 1931 and although models continued to be produced with the Bentley name they increasingly used many Rolls Royce components By the time the Silver Cloud and Bentley S were released in 1955 they were really differently badged versions of the same design Yet the sporting tradition of the Bentley marque was upheld with the exotic Continental models that were derived from them The Silver Cloud family represents a pinnacle for the Rolls Royce company The cars all had and still have a very special presence and the standard saloons have an unsurpassed elegance and rightness of line The special bodied cars meanwhile are reminders of an age when the skill of the best coachbuilders was something deserving of universal admiration With around 190 photographs this book features The story of the design and development of the Rolls Royce Silver Cloud and Bentley S Type A look at the production development of these cars between 1955 and 1965 An examination of the Bentley Continental models that were derived from Silver Cloud and S Type design The history of the Phantom V and Phantom VI limousine chassis introduced in 1959 and destined to last until 1990 Full technical specifications including paint and interior trim choices Production figures and chassis codes and finally a chapter on buying and owning one of these wonderful classic cars **Bentley MkVI** Martyn Nutland,2007-08-15 The Bentley MkVI introduced in 1946 fairly bristled with new ideas and marked a bold change of direction for a company as conservative as Rolls Royce owner of the Bentley marque The most radical departure from pre war practice was the fact that the MkVI could be bought with a standard body Other major new features were the engine cruciform chassis and hydraulically operated front brakes However none of this indicates the true historical importance of the MkVI or why the model is at the heart of this book quite simply the MkVI s design was the well spring from which all the mainstream Rolls Royce and Bentley models flowed until the advent of the Silver Shadow and Bentley T Series in 1965 Here is the complete story of the Rolls Royce Silver Wraith Silver Dawn and Silver Cloud and the Bentley MkVI R Type and S Type Covering concept design and development production promotion publicity and the coachbuilt cars There is also helpful practical advice on buying and running these cars today together with appendices of chassis number sequences and dates build numbers and modifications and development by chassis number Illustrated with over 160 black and white and color photos this book is a must have for anyone interested in automotive history **British Ford Cars of the 1960s and 1970s** James Taylor,2022-08-02 The 1960s and 1970s were a pivotal

Cocktails with George and Martha Philip Gefter,2024-02-13 Smart and entertaining Gefter shows why Who s Afraid of Virginia Woolf hit the 60s like a torpedo NPR Fresh Air Delicious New York Times Book Review The behind the scenes story of a provocative play the groundbreaking film it became and how two iconic stars changed the image of marriage forever From its debut in 1962 Edward Albee s Who s

Afraid of Virginia Woolf was a wild success and a cultural lightning rod. It scandalized critics but magnetized audiences. Across 644 sold-out Broadway performances, the drama demolished the wall between what could and couldn't be said on the American stage and marked a definitive end to the I Love Lucy 1950s. Then Hollywood took a colossal gamble on Albee's sophisticated play and won. Costarring Elizabeth Taylor and Richard Burton, the sensational 1966 film minted first-time director Mike Nichols as industry royalty and won five Oscars. How this scorching play became a movie classic surviving censorship attempts, its director's inexperience, and its stars' own tumultuous marriage is one of the most riveting stories in all of cinema. Marfield Prize-winner Philip Gefter tells that deliciously entertaining story in full for the first time, tracing Woolf from its hushed origins in Greenwich Village's bohemian enclave through its tormented production process to its explosion onto screens and its permanent place in the canon of American cinema. This deliciously entertaining book explores how two couples, one fictional, one all too real, forced a nation to confront its most deeply held myths about relationships, sex, family, and against all odds, love. The Flying Lady, 1965 British Car Advertising of the 1960s Heon Stevenson, 2015-03-27 During the 1960s, the automobile finally secured its position as an indispensable component of daily life in Britain. Car ownership more than doubled from approximately one car for every 10 people in 1960 to one car for every 4.8 people by 1970. Consumers no longer asked, "Do we need a car?" but "What car shall we have?" This well-illustrated history analyzes how both domestic car manufacturers and importers advertised their products in this growing market, identifying trends and themes. Over 180 advertisement illustrations are included. *Fashion, Design and Events* Kim Williams, Jennifer Laing, Warwick Frost, 2013-12-17 The importance of fashion and design in an events context remains under-researched despite their ubiquity and significance from a societal and economic perspective. Fashion-themed events, for example, appeal to broad audiences and may tour the globe. Staging these events might help to brand destinations, boost visitor numbers, and trigger popular debates about the contributions that fashion and design can make to identity. They may also tell us something about our culture and wider society. This edited volume, for the first time, examines fashion and design events from a social perspective, including the meanings they bestow and their potential economic, cultural, and personal impacts. It explores the reasons for their popularity and influence and provides a critique of their growth in different markets. Events examined include fashion weeks, fashion or design-themed exhibitions, historical re-enactments, extreme alternative fashion and design events, and large-scale public events such as royal weddings and horse races. International examples and case studies are drawn from countries as diverse as the USA, UK, Germany, Bhutan, New Zealand, and Australia. These are used to develop and critique various thematic concepts linked to fashion and design events, such as identity, gender, aspirations, and self-image, commodification, authenticity, destination development, and marketing, business strategy, and protection, infringement of intellectual property. *Fashion, Design and Events* also provides a futurist view of these types of events and sets out a future research agenda. This book has a unique focus on events associated with fashion and design and features a swathe of disciplinary backgrounds. It will appeal

to a broad academic audience such as students of art and design cultural studies tourism events studies sociology and marketing

Dark Side Of Healthcare, The: Issues, Cases, And Lessons For The Future Brian Edwards,2021-05-28 The Dark Side of Healthcare draws uncomfortable lessons from over 300 case studies of events that occurred in the healthcare sector Health services have many skilled and dedicated professionals but there is a dark side that cannot be ignored The unthinkable has happened and might have been prevented The case studies from many countries include serial killers with a health background drugs and medical devices that proved to be dangerous negligent and poor clinical practices as well as incompetent and weak management that led to failing hospitals and harm to patients There are also corruption cases accidents at work and cases involving the sexual exploitation of children Politicians early responses to COVID 19 and the subsequent missteps are also scrutinised Many of the errors and omissions that led to patient harm have been repeated This book is not an attack on health services or health professionals Instead it is a search for ways of making health delivery safer for patients and staff who deliver care often in challenging circumstances Its focus is learning rather than blame
